Nurseries & Greenhouses—On Seventh Street Road.

BALTIMORE:
PRINTED BY JOHN MURPHY & CO.
182 BALTIMORE STREET.
1881.

NOTICE.

In again presenting my Spring Catalogue, I do so with much pleasure, having added largely by importation of everything new and valuable among the various classes.

I especially offer to the notice of my patrons many extremely rare and beautiful plants, suitable for the hot-house and green-house, as well as for bedding out.

The description of the new plants are those of the parties who sent them out.

When selections are left to me, the very finest varieties will be sent, and the most vigorous plants.

After many years' experience in packing and forwarding plants to distant countries, I flatter myself I can pack both economically and safely for any distance.

No charge is made for boxes or packing.

Single plants, bulbs, &c., will be mailed free; but when ordered by the dozen or hundred, the single price or a sufficient amount must be remitted to cover postage. On their reception they should be potted and placed in a frame or greenhouse to recover the effects of the journey. To Florists and Nurserymen who wish new plants, the mail offers the greatest facility for obtaining such, as they know how to care for them on their arrival. Amateurs who have no means of caring for plants after a journey through the mail, as well as all persons requiring a considerable quantity of plants of a larger size, had better have their orders by express. If left to me, I will forward in such way as I deem best for the purchaser.

In all orders by express, good plants are added in proportion to the value of the order or distance. Persons getting up clubs will be liberally rewarded with choice plants in proportion to the amount remitted.

The prices at which some of the new plants are offered, may appear high to persons unacquainted with the importation of these articles. For such I have to pay high prices in Europe, adding duty, freight, risks, &c., to justify which when first offered, the price should be proportionate—though I make it at the lowest possible rates, and as stock increases the price is reduced. Older and standard varieties are offered at my usual very moderate rates.

Orders intended for mailing should be accompanied with a remittance, but in express orders the purchaser may remit, or the article will be forwarded C. O. D. at his option.

Write your name plainly; give post-office, county and State, whenever you write, no matter how frequent.

Please use the order sheet, or in a list apart from the body of the letter. This much facilitates business and prevents errors. Let orders for plants and seeds be on separate lists. All, however, can be packed together. In making out order please affix prices that I may know the size of plants required.

Customers who fail to receive a catalogue in due time, will please inform me of the same, that a copy may be sent, as catalogues are frequently lost in the mails.

I charge for plate with catalogue to applicants who have not previously purchased, but when, however, orders are subsequently sent, the price of the catalogue will be allowed.

This catalogue annuls prices in all former issues.

February, 1881. JOHN SAUL.

New, Rare and Beautiful Plants.

New, Rare and Beautiful Plants.

BENNETT'S NEW HYBRID TEA ROSES.—*See Colored Plate.*

*DUKE OF CONNAUGHT.

"Foliage exceedingly handsome, flowers extra large, buds very long and of very fine form, color deep velvety crimson, edged with the brightest red. This is not unlikely to prove the finest crimson rose in any section.

NEW TEA ROSE, DUKE OF CONNAUGHT.

Is one of the acquisitions of Mr. H. Bennett, Stapleford. Cut blooms which we have seen prove it a gem of the first water, a full-sized showy flower of a rich crimson, the color almost equalling in intensity that of the old crimson China, and the flowers having a most delicious scent."—*London Florist.* 75 cts.

* BEAUTY OF STAPLEFORD.

"Foliage resembling Alba Rosea, but much stiffer in habit, flowers very large, petals large and beautifully arranged, well reflexed, gradually merging to the centre, of the finest possible form, color outer range of petals very pale pinkish rose, gradually shaded to a deep rosy centre. It is scarcely possible to imagine a finer exhibition rose." 75 cts.

*PEARL.

"Flesh white. This is not a large flower, but perfection in other respects." 75 cts.

*MISS MARY C. SAUL, (SAUL.)—*New Pelargonium.*

This beautiful new flower originated in our establishment. It is compact, good habit, very free flowering, trusses large and finely formed; color deep rich crimson, dark blotch, smooth edge, a lovely flower. $1.00.

*MISS ROSINA M. SAUL, (SAUL.)—*New Pelargonium.*

Another of our beautiful new Pelargoniums, of excellent compact habit, free growth and profuse bloomer, fine trusses—color upper petals crimson, with dark blotch, lower petals light crimson; centre white, all beautifully reticulated with crimson, slightly frilled. $1.00.

*MISS TERESA M. SAUL, (SAUL.)—*New Pelargonium.*

In habit, similar to our two preceding, and of free growth and profuse flower; beautiful trusses. Color upper petals orange vermilion, with dark blotch; lower petals lighter shade, centre white. $1.00.

*MRS. POTTEN, (LEMOINE.)—*New Pelargonium.*

This is a charming variety; habit good and compact, trusses large, finely formed; color purest white, with very dark blotches. Received a first class certificate from the Royal Horticultural Society of London. $1.00.

* WILLIAM POTTEN, (LEMOINE.)—*New Pelargonium.*

Grand umbels, individual flowers large and finely formed, color a rich maroon, base of petals veined, a free grower and bloomer. Forms a grand show plant—very fine. 75 cts.

* VOLUNTE NATIONAL, (LEMOINE.)—*New Pelargonium.*

An exquisite Pelargonium, of a fine, free, yet compact habit, and produces numerous large and symmetrical trusses of bloom, flowers white with a warm salmon pink blotch on each segment, margins and throat pure white, petals fringed. 75 cts.

* LUCIE LEMOINE, (LEMOINE.)—*New Pelargonium.*

A chaste and beautiful new flower, grand umbels of purest white flowers, perfect form and shape, fine compact, vigorous habit. This magnificent and distinct flower will be extensively grown. 75 cts.

MAD. CHARLES KŒNIG, (LEMOINE.)—*New Pelargonium.*

Purest white, without a trace of color, flowers finely formed and in symmetrical trusses. This is a superb variety, which will be extensively grown wherever chaste and lovely white flowers are in demand. $1.00.

* PLUTUS.—*New Pelargonium.*

Very fine free habit, trusses enormous, color a violet rose, heavily blotched on all petals; beautiful form. A showy flower. 75 cts.

* MIGNONETTE, (LEMOINE.)—*New Pelargonium.*

An elegant variety with fine trusses of beautifully formed flowers, color rose carmine, centre white maroon blotch; a good grower and free bloomer. A showy and beautiful flower. 75 cts.

* EMILE ZOLA, (LEMOINE.)—*New Pelargonium.*

Truss large and finely formed, color carmine orange, bordered with bright rose, centre with maroon blotch, a vigorous grower and profuse bloomer—a lovely flower. 75 cts.

* MISS MALLER, (LEMOINE.)—*New Pelargonium.*

Truss large and elegantly formed, flowers pure white, exceedingly chaste and beautiful, a good grower and free bloomer—a charming flower. 75 cents.

NEW DOUBLE GERANIUMS.

H. CANNELL, (LEMOINE.)

This variety produces immense trusses of fine double flowers of a rich violet amaranth color, the upper petals marked with bright red; an extremely attractive flower. $1.00.

* MAD. CHARLOT.

Very beautiful trusses, of fine double flowers, color rose mauve, spotted with white on each petal. $1.00.

* MADEMOISELLE PERRAULT.

Grand trusses of double flowers, of an orange salmon color, petals edged with flesh white. Distinct and fine. $1.00.

* M. FLORENTIN.

Large trusses of finely formed double flowers; color deep orange, scarlet extra. $1.00.

*RAVISSANT.

Fine truss, semi-double, color rose solferino, a beautiful tint. Fine for winter blooming. 75 cts.

AMAZONE, (LEMOINE.)

Very large and beautiful trusses, color creamy white; from its novel color, fine habit and profuse blooming qualities, will make it largely grown. 50 cts.

AUG. POIRIER, (LEMOINE.)

Trusses large and spherical, color salmon rose, with bright orange centre, distinct in color, fine habit and profuse bloomer; a superb variety. 50 cts.

COMTESSE HORACE DE CHOISEUL, (LEMOINE.)

Trusses large and finely formed, color salmon orange; dwarf compact, floriferous habit, an exceedingly beautiful plant for bedding or pot culture. 50 cts.

DENFERT ROCHEREAU, (LEMOINE.)

Immense trusses of finely formed flowers; color a fine salmon. A grand plant for bedding, being of compact vigorous habit, a profuse bloomer, and the colors striking and distinct. 50 cents.

GENERAL DE GALLIFFET, (LEMOINE.)

A beautiful habit. colors distinct—orange, base of petals rose; a superb plant for bedding or pot culture, color and habit being most distinct. 50 cts.

PAUL BERT, (LEMOINE.)

Very large and grand umbels of finely formed flowers, color a lovely violet rose; fine habit, excellent for bedding or pot culture. 50 cts.

VILLE DE NANCY, (LEMOINE.)

Enormous trusses of grand finely formed flowers, color tender rose, very chaste and lovely, finest habit. This is a very beautiful plant for pot culture or bedding. 50 cts.

AMPHITRITE, (LEMOINE.)

Trusses large, fine color, alabaster white, neat, compact habit and free bloomer; a very beautiful plant. 50 cts.

HEROINE, (LEMOINE.)

An exceedingly vigorous free flowering variety, trusses large, flowers of the purest white, a charming variety. 50 cts.

LOUIS POIRIER, (LEMOINE.)

Very fine large globular trusses of large full flowers, color a salmon rose with bright orange centre, fine habit and free bloomer, very fine. 50 cts.

M. MACHET, (LEMOINE.)

Large trusses of well formed flowers, color a reddish orange, the lower petals of which are marked with salmon rose, quite a new color; a distinct and fine variety. 50 cts.

M. PASTEUR, (LEMOINE.)

Fine large trusses of spherical flowers, of a beautiful reddish orange color; a neat compact habit and free bloomer, fine. 50 cts.

PERLE, (LEMOINE.)—*New Double Geranium.*

Trusses large, flowers finely imbricated, of a soft satiny flesh color, neat habit, profuse bloomer, a beautiful and distinct color. 50 cts.

PSYCHE, (LEMOINE.)—*New Double Geranium.*

Grand trusses of semi-double flowers, color fine white, slightly tinted with pink, a superb variety. 50 cts.

JEAN DOLFUS, (LEMOINE.)

Large truss, fine habit, color double crimson, very fine. 50 cts.

The above 20 beautiful varieties, for $10.50.

Per plant.

Nymph, (Lemoine) Immense trusses of pure white, imbricated flowers, delicately tinted; this is the finest of all double whites; a grand flower. Received first class certificate of Royal Horticultural Society, London..... 0 40

Chas. Hovey. Very large trusses of delicate blush, fine habit and free bloomer; a lovely flower. Received first class certificate of Royal Horticultural Society of London..... 0 30

President Renouard. A fine flower of a bright carmine color with light centre, large trusses, good habit and free bloomer..... 0 30

Violet. A very free blooming variety, producing beautiful flowers of a violet crimson color, large globular trusses and fine habit..... 0 30

Champion. Large globular trusses, color rose shaded with mauve and marbled white, very distinct and pretty..... 0 30

M. de Joybert. Large globular truss of semi-double flowers, color a deep scarlet, a remarkably fine variety..... 0 30

*NEW GERANIUMS OF 1881.

*Price 50 cents each. *The Set of 12 for $5.00.*

Double Varieties.

Mrs. E. G. Hill. "A superb novelty, and entirely distinct from any previous variety. The flowers are double, nearly 1½ inches across, of most exquisite shape, ground color pale blush, overlaid with a delicate lavender shade; trusses of great size, measuring nearly six inches across, and keeping in perfect shape for a long time. The habit of the plant is free and robust, and very free flowering."

Peter Henderson. "Another fine variety with exceedingly bright orange scarlet double flowers of fine shape, with base of petals pure white; trusses globular and freely produced; habit free, short jointed and stout." See report in proceedings of Nurserymen's Association held at Cleveland, Ohio. 1879.

Richard Brett "Immense trusses of flowers of that peculiar orange color of which 'Jealousy' is the type, very double; an entirely new shade amongst double varieties; a grand bedder and of great merit."

Robert George. "A deep crimson scarlet of great size, brighter, and more decided in color than Deputy Laflize; a remarkable free flowerer, and of fine strong growth, without coarseness."

The Blonde. "Another distinct and beautiful variety, quite different from any of its class; ground color salmon, deeply shaded orange, base of petals white, with a distinct margin of white around each; flowers of the finest shape; trusses of great size; habit, all that can be desired."

Remarkable. "A much improved Ernest Lauth, with better shaped flowers of a deeper shade; trusses very large, and as freely produced as the freest flowering single kinds."

Dr. Phinney, (A. T. Simmons.) "Intense scarlet, shaded with deepest chesnut crimson, individual flowers of great size; trusses very large and freely produced; a superb variety of great merit"

Hazel Kirke. "This is a variety with immense trusses of rich purple crimson flowers, short jointed growth; and a most distinct and beautiful Geranium. This was shown in New York, as Mazeppa, which was an error, hence the change."

Single Varieties.

Mary Hallock Foote. "Immense trusses of bright pale salmon, individual flowers, very large, and of the finest shape, with a pure white eye; a grand variety."

Beacon. "Flowers of deep crimson scarlet, of fine shape, small white eye; large trusses and of fine habit."

Orange Boven. "Centre of flowers bright orange, each distinctly margined with white; trusses immense size, quite globular; a free grower, and a valuable acquisition."

Mazeppa. "Flowers deep pure scarlet, of fine shape and substance; trusses immense, freely produced, and of fine, free habit."

Review. "Ground color salmon, distinctly margined and mottled with white, of the finest shape; trusses large and of good size; quite an addition to the light class, and very desirable."

NEW ZONALE AND NOSEGAY GERANIUMS.

*ALBERT GRÉVY, (LEMOINE.)

Per plant.

A large and well formed flower, of a rich violet amaranth color; the upper petals marked with bright orange scarlet, in the style of Dr. Denny; very fine.....$1 00

* BARON TAYLOR, (LEMOINE.)

Fine large trusses of beautiful pink flowers; individual flowers large, an exceedingly beautiful zonale. From Beutie de Suresne..... 1 00

* CHAM, (LEMOINE.)

Enormous trusses, color cherry, with salmon centre, very fine..... 1 00

* DANTE.

A beautiful flower, fine trusses, color delicate rose, centre white, extra..... 0 50

* PYRRHUS.

A magnificent variety, producing flowers of a deep rich magenta crimson color, and having the upper petals shaded with bright scarlet..... 1 00

CHALLEMEL LACOUR, (LEMOINE.)

Immense trusses, color bright rich crimson, fine habit, a very beautiful plant..... 0 50

DE MORTILLET, (LEMOINE.)

Fine globular trusses, color a bright rose with a fine white centre, neat compact habit, very fine..... 0 50

JULES FERRY, (LEMOINE.)

A very beautiful zonale, color a bright orange veined with carmine, centre of petals light rose, compact habit and free bloomer; a charming variety..... 0 50

MAJOR LABORDERE, (LEMOINE.)

Trusses immense, color light rose, free bloomer and fine habit, very distinct and striking, 0 50

PRESIDENT GAMBETTA, (LEMOINE.)

Very large finely formed trusses, excellent habit and free bloomer..... 0 50

P. JADOUL.

Very large trusses of finely formed flowers, color rich violet, petals edged with carmine, exceedingly distinct and beautiful, a charming pot plant..... 0 50

HETHERANTHE.

This is a beauty. The flowers are cup shaped, of brilliant scarlet color, shining like gold dust; truss large and perfect, free bloomer, good grower; extra in every respect..... 0 50

The above 12 beautiful varieties for $7.00.

NEW BRONZE ZONALE GERANIUM.

*DIAMANT, (LEMOINE.)—*Single.*

Per plant.

An exceedingly beautiful tricolor bronze. Large round leaves, bright yellow, with a rich maroon zone, colors very brilliant, fine habit..... 0 50

*MAGICIEN.—*Double Bronze.*

A fine bronze zonale, with semi-double scarlet orange flowers, fine habit..... 0 50

*SAPPHO.—*Double Bronze.*

A variety of fine habit and beautiful marked foliage. Flowers very large semi-double, vivid orange, extra..... 1 00

*HERMONIE, (LEMOINE.)—*Double Tricolor.*

This is a great novelty among Geraniums, a silver tricolor with fine double orange salmon flowers; a most beautiful variety..... 0 75

*IRIS, (LEMOINE.)—*Double Tricolor.*

Foliage green, bordered with yellow; flowers double of a bright scarlet, very fine..... 1 00

*SOLIEL LEVANT, (LEMOINE.)

Very deep chocolate zone, bordered with white; flowers double brilliant scarlet. A very showy and beautiful plant..... 1 00

*NEW VARIEGATED GERANIUM, "FREAK OF NATURE."

A very unique and attractive variety. Outside of leaves light green, with a large pure white centre; flowers light scarlet; habit very dwarf and spreading. It is undoubtedly far before any other of its class, and the greatest novelty in foliage that has been sent out for years. In the way of "Happy Thought," but very superior in every respect. Awarded Three First Class Certificates..... 1 00

NEW DOUBLE FLOWERED IVY-LEAVED PELARGONIUMS.

Peintre Morot, (new). A beautiful new double; flower ranunculus shaped, white, tinted with lilac, reflex of leaves satin, neat habit..... 0 50
Gloire d'Orleans, (new.) Flowers large and double, of a magenta scarlet, profuse bloomer; a charming plant..... 1 00
La Fiancee. A new variety, color a bright lilac, large and double..... 0 20
Lucie Lemoine. Flowers large and double, white, tinged rosy lilac; free bloomer..... 0 20
König Albert. A very effective form, with flowers of a bright violet-pink color, of good shape and double form..... 0 20
Mlle. Adrienne Barat, (Lem.) Flowers double, beautiful lilac; a beautiful new variety..... 0 25
Sarah Bernhardt. Large, double white veined with crimson; a vigorous fine variety. 0 25

NEW REGAL PELARGONIUMS.

This name is applied to that magnificent group of Pelargoniums the flowers of which are of large size, very rich and showy; a few are double, and although the others are not really double, yet from their fulness of form and the extra number of petals, they have the appearance of being so.

Per plant.

Beauty of Oxton. The upper petals are of a very rich maroon color, darkly blotched; under petals very dark crimson, shaded with maroon; light centre tinted with rose; all the petals margined with white, and beautifully fringed. Flowers large and full, the extra number of petals giving them the appearance of being semi-double..... 0 50

Per plant.

*Duchess of Bedford. One of the most useful and charming of this highly decorative section of Pelargoniums. Its blossoms are of the purest white, prettily fringed, with a feathered spot of delicate rose in the upper petals. Its habit is dwarf and compact, and the flowers are produced with the greatest redundancy. Added to other qualities, this is one of the best of the early-blooming varieties..... 0 75

Mrs. John Saul.—(*Colored Plate in 1878.*) This beautiful flower, which originated in our establishment, we consider one of the very best in cultivation. It belongs to the new class of "Regal" or "Fringed" Pelargoniums. The habit is compact and very free flowering, producing large trusses of charming flowers. The color is a rich glowing vermilion, with light centre and light margin to the petals. We feel much pleasure in offering this splendid flower..... 0 50

Dr. Masters. A splendid variety. It is of dwarf sturdy habit, the trusses, which are large and in great profusion; it is semi-double, the upper petals having large black blotches in the centre, with a narrow margin of rich crimson, the lower petals having a smaller blotch, with a broader margin of the same color as the upper..... 0 50

Triomphe de St. Maude. One of the best high colored varieties in cultivation. The habit close and short-jointed; it is profuse of bloom, and the flowers are large and of massive substance. Triomphe de St. Maude is a fine conservatory plant, while it is a telling exhibition variety..... 0 50

Le 20 Fevrier. In the style of that lovely flower, Prince of Pelargoniums; color brilliant orange vermilion, blotched with maroon on upper petals, lower petals light color, nicely fringed, a magnificent variety 0 50

Madame Evrard. A most distinct variety; the flowers are very full, with beautiful crispy petals of an exceedingly bright purplish crimson color, richly spotted with dark maroon 0 50

* Madame Thibaut. White, richly blotched and marbled with rose; the upper petals marked with crimson maroon; large white centre; immense trusses of very large fine flowers, with undulated petals..... 1 00

M. Ph. Zeller. A distinct and showy variety, producing very large and full flowers, of a rich fiery crimson color, bordered with rose and spotted with very dark blackish red..... 0 50

Queen Victoria. To say that this is handsome conveys but an inadequate idea of it, for it is the most marvellously beautiful and novel variety ever offered. The flowers have peculiarly crispy petals; they are not really double, but from their fulness of form and extra number of petals have the appearance of being so. The color is a rich vermilion, all the petals broadly margined with pure white, and the upper ones blotched with maroon 0 50

Striata Elegans. This is one of the large flowered exhibition group of Pelargoniums. The flowers are a magenta rose, being flaked or barred with elegant blue mauve, the top petals have a black feather-like plume, unique in its combination of color. 0 50

* Prince of Novelties. This is a double flower, combining novelty and beauty, the usual upper and lower petals of unequal outline are transformed into a flat, circular ray of equalized petals, flower and truss large, the ground color is a brilliant carmine tinted crimson, with a blush white margin, each petal being marked at the base with a rich dark crimson blotch..... 0 50

Theophrasta. A very beautiful Pelargonium, flowers double crimson, freely produced; a very desirable variety..... 0 50

PELARGONIUMS.—New Varieties with Fringed and Striped Petals.

* "Queen of Stripes," (new.) The flowers are of good outline and substance, well expanded, petals or flower lobes overlapping, ground color elegant blush white, the petals being finely striped or barred with brilliant carmine-rose, each of the upper ones being marked with crimson lines surmounted with an intense crimson blotch. A charming plant..... 1 00

Gloria Patriæ. Color purest white—nearly all white, with a few veins of crimson on upper petals; compact habit, free flowering. An exceedingly chaste and lovely flower..... 0 50

Crispiflora. White, with rose blotches shaded lilac and blue, and beautifully fringed, a lovely variety in the style of *Dr. André*, early and profuse bloomer, fine habit; quite a florist's plant..... 0 50

Per plant.

Lapis Lazuli. Another of those beautiful frilled French Pelargoniums; color blush white, with scarlet belted blotched elegantly frilled like *Dr. André*, equally beautiful with the others described, neat habit, early and profuse bloomer..... 0 50

Mad. Vibert. Fine black maroon blotches, bordered fiery red, the flower entirely edged with rose, vigorous grower, fine habit and free bloomer; a grand flower..... 0 50

*Marie Lemoine. A very beautiful variety, large truss and flower, color white, beautifully fringed; in the way of Empereur des Pelargoniums, but of much finer form and greater substance; *extra fine*..... 0 50

Prince of Pelargoniums. This most beautiful variety resembles, in its style of flower, the well known *Dr. André*, by its elegantly fringed margin and equally large flowers, but greatly exceeds it in effect in being a brilliant vermilion scarlet ground color, finely relieved by a blush white centre with violet veins, and flushed with rich crimson on the upper flower lobes, producing its flowers in great profusion..... 0 40

Princess of Wales. A very handsome variety with elegant frilled petal margins, in the style of *Dr. André*, flower trusses large size, and borne in profusion well above the foliage; ground color pure blush, each petal alike marked with a rich dark velvet crimson scarlet margined blotch. This is unquestionably one of the most beautiful flowers ever raised..... 0 40

*Progress. Pure white, beautiful rose spot on all the petals; neat, floriferous, exceedingly distinct and striking; extra fine..... 0 50

*Star of the East. A very fine variety, resembling the *Princess of Wales;* it is equally free and compact in growth, with an equal profusion of bloom, but with larger flowers, of pure white ground. The petals are elegantly fringed, the upper ones marked with a rich crimson spot, and the under ones elegantly pencilled with violet colored lines..... 0 50

*Reveil de la France. Flowers snow white, spotted with rosy carmine; a delicately beautiful variety, will be largely grown..... 0 50

*Triomphe. A very showy flower, vivid carmine with a maroon blotch and marbled; a free grower and bloomer, a very attractive flower..... 0 50

*Trojan. Crimson, upper petals surrounded with bright rose and margined with pink, under petals blush, cleanly spotted with crimson..... 0 50

*DECORATIVE PELARGONIUMS.

The varieties here offered are largely grown for Covent Garden Market, *London.*

*Integrity. Very free compact habit, free bloomer..... 0 50

*Kingston Beauty. Pure white, with dark purple spot on each petal, very vigorous and free flowering..... 0 50

*Rob Roy. Rosy purple, upper petals black, white eye, fine free habit, profuse bloomer, 0 50

*Mabel. Dark maroon top, narrow edge, a heavily painted flower, fine free habit and bloomer..... 0 50

*Mermeris. Free, but compact habit, an early and profuse bloomer..... 0 50

*Scarlet Gem. Very bright crimson scarlet, fine free habit, early and profuse bloomer, 0 50

The set of 6 for $2.50.

NEW PLANTS.

*DRACÆNA GOLDIEANA.

One of the most magnificent ornamental foliaged plants ever introduced, and altogether unique in character and aspect. It is a native of Western Tropical Africa. The plant is of erect habit, and the stems are closely set with stalked spreading leaves, the petioles of which are of grayish color, terete with a narrow furrow along the upper side, the base being dilated and sheathing the stem. The blade of the leaf is cordate-ovate acuminate, with a yellowish green costa, and banded with dark green and silver gray in alternate straight or furcate bands, the colors being about equally distributed. The back of the unrolled leaves is a pale reddish purple or wine color, and the stem where visible at the upper joints is of similar hue, the lower parts becoming green. It is, without doubt, one of the finest of all stove plants and indispensable in all first class collections.

This magnificent plant was sent out in London in 1878 at 5, 7½ and 10 guineas per plant. Price on application.

*ALOCASIA HYBRIDA.

An exceedingly beautiful hybrid, sent out by Messrs. Veitch & Sons. It is of free growth with exceedingly beautiful foliage with a metallic hue, in the way of A. Veitchii, but much finer, will make a grand specimen plant for Exhibitions, &c. $2.50 each.

*BURBIDGEA NITIDA.

"This beautiful plant is the type of an entirely new genus, with the habit of Hedychium. It is a native of Borneo. It produces ten to thirty slender flowering stems, each bearing a panicle of 12 to 20 flowers each. The leaves are of a lively glossy green on both surfaces, and serve to set off the rich orange scarlet colors of the flowers. Its flowers, of a rich orange hue, render it a very striking stove plant."

"The first place among new plants must be claimed for Burbidgea Nitida." $2.00 each.

*HIBISCUS SCHIZOPETALUS.

"One of the most remarkable varieties of H. Rosa Sinensis; the petals are deeply laciniated and fringed, as are the petals of Mignonette, Clarkie, &c. Its drooping flowers with reflected orange red. and laciniated petals render this plant not only a curiosity, but highly valuable as a decorative plant. A most singular and elegant plant."—*Garden.* $1.50 each.

DRACÆNA GOLDIEANA.

*ARDISIA OLIVERI.

"*Ardisia Oliveri* is a stove shrub of remarkably striking appearance, with recurved foliage and large globular heads of flowers like those of an *Ixora*, but of pink color. The plant was introduced from Costa Rica by the late M. Endres."—*G. Chronicle.* $1.50 each.

*GARDENIA GLOBOSA.

A native of Natal, where it extends from the sea-coast to an elevation of 1200 feet, is a free-flowering shrub, having lanceolate glabrous leaves. The large white funnel-shaped fragrant flowers are terminal, the tube broad, an inch long, hairy at the mouth, and with the spreading limb an inch and a half across; they are succeeded by globose fruits, as large as a walnut. $1.50 each.

* BIGNONIA MAGNIFICA.

A free-growing and extremely floriferous stove plant, of scandent habit. The flowers which are produced in large branching panicles, are of great size (about 3½ inches across), and of an exceedingly attractive color, ranging from delicate mauve to rich deep purplish crimson, relieved by a conspicuous throat of light primrose color. $2 each.

* TRADESCANTIA MULTICOLOR, "MADAME LEQUESNE."

This new variety is well adapted for basket culture. The leaves are pale green, beautifully variegated with white and rosy purple; sometimes the leaf is entirely suffused with either color; a very distinct and decidedly pretty plant. 75 cents each.

* ANTHURIUM SCHERZERIANUM WILLIAMSII.

This is undoubtedly the greatest novelty of recent introduction, and will prove as great a favorite with the plant-growing public as *A. Scherzerianum* itself, and to which it will form a splendid companion plant; in habit and growth it is in all respects like the normal state, but its spathe and spadix differ entirely; in the variety now offered the spathe is pure ivory white, and the spadix a pale lemon color. $2 each.

* ARALIA MONSTROSA.

This is a very elegant and distinct Aralia. The leaves are pendent, pinnate, having 3 to 7 oblong elliptic leaflets deeply and irregularly serrated; sometimes the serration takes most fantastic forms and gives the leaves an altogether unique appearance. The leaflets are broadly margined with creamy white, the surface blotched with grey. Ready in May.

* EURYCLES CUNNINGHAMII.

An exceedingly beautiful bulbous rooted plant from Queen's Land, Australia. The flowers are pure white, produced in a many flowered umbel; it gives its chaste pure white flowers during spring. $1 each.

* PHILODENDRON CARDERI.

This exquisitely colored Aroid is a native of South America. The leaves are cordate, broadish, of a dark shaded bottle green, with a satiny lustre, the principal ribs being marked out by bright green lines of a glaucous or metallic hue; at the back the leaves are of a shaded wine purple, the course of the veins being marked by broad green lines. The glossy shaded satiny surface of the leaves imparts to them a wondrous degree of beauty. (Ready in May.) $2 each.

* JUNCUS ZEBRINUS.

The plant, which is a true rush, throws up erect terete leaves, but these instead of being green, are transversely banded with white and green, the colors being in most cases pretty evenly distributed; in the best marked leaves, the green and white portions occupy alternately nearly equal bands of about half an inch deep. It is a most interesting plant. $2.50 each.

ASPARAGUS.—*New Species.*

Florists will find in these new Asparagus with their delicately beautiful feathery growths, plants admirably adapted for floral work.

* ASPARAGUS FALCATUS.

A copiously branched twining evergreen. It grows several feet in height, and has slender angular branches. The leaf-like cladodia are in threes, bright green and glabrous; the hermaphrodite flowers are white, and grow twenty or thirty together in lateral racemes from the nodes of the branches. *Ready in May.*

*ASPARAGUS PLUMOSUS.

An elegant evergreen climber with slender stems, smooth and numerous spreading branches; the white flowers are produced from the tips of the branchlets. It is an exceedingly handsome ornamental plant for the greenhouse or conservatory, and its pretty feathery growths are extremely useful for cutting for decoration. Ready in May.

*ASPARAGUS RACEMOSUS.

An elegant climbing foliage plant. The stems are very slender, and furnished with still more slender branchlets and spray, clothed with linear cladodes or false leaves of bright glossy green. It is a most desirable plant for the conservatory and warm greenhouse as a pillar and trellis climber. It is also useful as a decorative plant generally, its distinct habit and aspect rendering it especially effective for contrast. Ready in May.

*ASPARAGUS VIRGATUS.

Of shrubby habit, elegant and feathery. Rootstock emitting several stems, the upper part of which branch in a corymbose manner; branches sub-erect, again twice branched; a feathery graceful plant. Ready in May.

*GLONERIA JASMINIFLORA.

A fine evergreen stove shrub, of erect branched habit and terminal roundish corymbose panicles of long tubed white flowers with a four parted limb, and freely produced; a beautiful plant. $1.50.

*PURE WHITE, PERFECT, DOUBLE-FLOWERING BOUVARDIA, "ALFRED NEUNER."

"This is equal, if not superior, in profuse blooming quality to the valuable single white variety, Davidsonii, of which this double white one is a sport. The flowers are rather larger than those of the single-flowering, and composed of three perfect rows of petals of the purest waxy white color, each floret resembling a miniature Tuberose. $1.50 each. Ready in May.

*MONTBRETIA POTTSII.

A bulbous rooted plant from the Cape, requires similar treatment to Gladiolus; stem 1½ to 2 feet high, with a panicle nine inches long, bearing long, deep bright yellow flowers, tinted outside with red. $1 each.

*ERYTHRINA MARMORATA.

"A free growing, very showy variegated plant, of erect habit, with beautifully colored foliage. The leaves are broader than those of the flowering kinds usually cultivated; they are blotched and spotted with white in a very effective manner.

"The elegant and beautiful appearance of this plant renders it most useful for decorative purposes." $1.50 each.

*PAVONIA WIOTI.

"A very striking flowering plant. The outer calyx consists of two whorls of narrow slender *bright red* bracteoles, the outer whorl shorter than the inner, which equals the closed corolla. Both the latter and the calyx are of a '*red black.*'

"It flowers continuously throughout the year, but most freely in the winter months; it also commences to bloom when only 2 to 4 inches high, and a small plant has from 20 to 40 blooms open at one time, and thus with its neat habit and pleasing foliage it will be exceedingly valuable for decorative purposes." $1.00.

GRAPTOPHYLLUM NORTONII.

"The leaves are of ovate-oblong form. about 6 inches long and 2½ inches broad, and deep glossy green. The mid-ribs are at first light rose, and have on one or both sides a central blotch of light yellow. As the leaves approach maturity the mid-ribs deepen to crimson, and the blotches become suffused with rose." 50 cents.

*PANAX LACINIATUM.

An elegant and very distinct plant. The leaves are tinted and indistinctly marked with pale olive brown, and form a rather complicated mass of narrow segments; they are bipinnate, nearly as broad as long, and have a drooping contour; and the pinnules or segments are very variable in size and form, presenting the appearance of a complex head of foliage in which the lanceolate lobes or pinnules have the preponderancy. $1.00.

CLIDAMIA VITTATA.

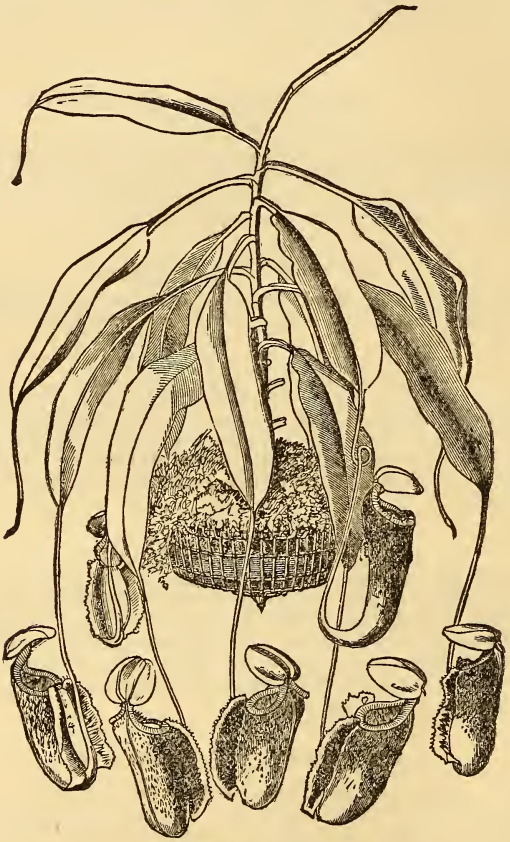
"A splendid foliage plant, having large green leaves with a light band down centre of the leaf, of easy culture and rapid growth." 50 cents.

*ANTHURIUM WAROCQUEANUM.

A remarkable Aroid. The leaves are greatly elongated, attaining lengths of from 24 to 30 inches, with a breadth of not more than 7 or 8 inches. The ground color is deep green of a very rich hue, with a velvety lustre and appearance, with which the light color of the mid-rib and veins form a pleasing contrast. To the lovers of fine foliage plants this beautiful Anthurium will be a most welcome acquisition. $2 00 each.

*HYDRANGEA J. TRICOLOR.

A very beautiful variety of Hydrangea. Variegated with white and yellow. $1 each.



Pitcher Plant.

NEPENTHES, PITCHER PLANT.

Per plant.

*Gracilis Major. This is a plant of free growth and somewhat compact habit; its pitchers are produced very abundantly; the ground color is dark green, over which is a profusion of dark reddish brown spots.....$0.75 to 2 50

*Phyllamphora. This plant is of very free growth, producing in great profusion moderate sized pitchers of a bright green.....$0.75 to 2 50

Per plant.

*Lævis. Of very free growth, producing its pitchers freely, of moderate size, of a bright green, shaded with reddish brown.....$0 75 to 2 50

*Courtii. A hybrid pitcher plant of exceptional merit. The plant, although free growing, is dwarf in habit. The leaves are coriaceous, and margined with hairs. The pitchers, which are freely produced, are flask-like, deep green in color, densely spotted or clouded with deep crimson, and attain a length of from six to eight inches. The membranous texture of the pitcher is remarkably firm and durable, 5 00

*Hookerii. A magnificent species, of robust habit; the leaves are long and broad, supporting fine large pitchers upwards of four inches in length and two inches in diameter. The ground color is dark green, which is profusely streaked and blotched with dark red.....$2.00 to 4 00

*Rafflesiana. Of robust growth, producing very large pitchers of great beauty, which measure from six to twelve inches in length; ground color dark green, mottled and blotched with red. Its handsome pitchers render it a general favorite..... 2 50

*Sedeni. The pitchers are produced freely even on very small plants; they are of medium size, oblong, dilated at the base, narrowed above the centre, and slightly expanded towards the top and provided with two ciliolate wings; in color a dark green, densely covered with dark red spots. It is of dwarf and very neat habit, $2 to 5 00

*Hybrida Maculata. It is of free growth, and produces its pitchers in great profusion; they are cylindric, slightly contracted above the middle and winged, the wings being ciliated; they are stained with purplish red spots of a peculiar tint by which this variety may be recognized..... 2 50

*Dominii. A very beautiful pitcher plant, producing its large pitchers freely; color green, marbled and spotted reddish brown..... 2 50

*DIPLADENIA BREARLEYANA.

"This splendid variety of Dipladenia is one of the best exhibition plants extant. It is of free growth, and of the most floriferous character, in this respect greatly exceeding any other Dipladenia. It is an evergreen stove climber of the very first rank, superbly colored flowers, which are of the largest size, opening pink and changing to the richest crimson color. They have this remarkable peculiarity, that the color increases in intensity with the age of the flowers. Beautiful as were the Dipladenias of some few years since, they have been quite eclipsed by the improved varieties which have been obtained, and amongst these, *D. Brearleyana* is certainly the most distinct and beautiful." $2.00.

*DIPLADENIA WILLIAMSII.

A splendid hybrid, an intermediate form between *D. amabilis* and *D. splendens*. Color soft pink or rosy crimson; it is very profuse; flowers produced in large clusters, the raceme continuing to grow and produce a succession of blooms—a marked and desirable character in this variety. Its free habit of growth and prolific blooming qualities, will render it a most desirable plant." $1.00.

*BERTOLONIA VAN HOUTEII.

Has the leaves of a rich olive velvet ground color, traversed broadwise by large bars of beautiful magenta red, and dotted all over with thousands of spots of the same color. This description will, however, give only a slight idea of the real beauty of this plant. 75 cts.

*BERTOLONIA RODECKII.

Ground color bronze, speckled with white spots, nerves fine green, edged with creamy white; a perfect gem. $1.50 each.

BERTOLONIA GUTTATA.

Leaves dark green, profusely dotted with rose colored spots, a charming plant. 75 cts. each.

*NERIUM LILIAN HENDERSON.—*Oleander.*

Lilian Henderson. This beautiful Oleander is the most prolific bloomer and finest of the white flowered varieties. The flowers are double, full petaled, rose-like in form, with a delicious perfume; small plants blooming freely will cause this plant to be grown largely for decorative purposes as well as being unique for the bouquet. $1.00 each.

*NERIUM PROF. DUCHARTER.

Purplish wine color, the darkest Nerium; beautiful shade, very showy; single. $1 each.

*HESPERALOE YUCCAFOLIA OR ENGELMANNII.

A very scarce and beautiful plant from the Nueces River, Texas, which is best described as a Yucca, with red flowers. The discoverer's description is "a large group of these plants with flower stems from 4 to 5 feet in height, covered entirely with beautiful red bell-shaped flowers, which we took at the first glance for Yuccas." $2.00 each.

*DIEFFENBACHIA NOBILIS.

The plant is stocky in habit, and well set with spreading leaves. The leaf-stalks are very pale green. The blades are of a deep rich green, marked over the central portion to within about an inch of the margin, with largish angular, irregular and variously confluent white spots, which contrast strongly with the color of the margin and intervening portions. Altogether a strikingly handsome plant of its group. $1.00 each.

*CURCUMA ROSCOCANA.

It grows 1½ to 2 feet high and the showy part of the plant is the peculiar lip-like bracts with which the erect flower spike is thickly furnished. These bracts are of a bright reddish orange hue, and each encloses two or three small flowers of a clear yellow color. $1 each.

*CROTON NEVILLIÆ.—(*New.*)

A Croton of elegant habit and remarkably distinct in the color of its foliage.

The leaves are of oblong-lanceolate form. When first expanded their midribs are bright golden yellow, and the blades light olive green barred and marked with yellow. In the mature leaves, the yellow is changed to crimson shaded with orange, and the green much deepened, the whole being suffused with a metallic hue peculiar to this plant. $2.50 each.

*CROTON EVANSIANUS.—(*New.*)

"A handsome Croton well distinguished by the peculiar form of its trilobate leaves and the depth of coloring pervading the whole plant, The newest formed leaves are light olive green with mid-ribs and veins of golden yellow, and the inter-spaces spotted with the same color. As the leaves become older, the green deepens and changes to a bright bronzy crimson, and the golden yellow of the mid-ribs, veins and spots becomes a rich orange scarlet." $1.00 to $3.00 each.

*CROTON HANBURYANUS.—(*New.*)

"A new variety of bold and spreading habit, introduced from New Caledonia.

"The leaves are about 15 inches in length and 2½ inches in breadth.

"The coloring is exceedingly varied and attractive; the ground color, a bright olive green in several shades is, in many leaves, quite subordinate to the rich golden yellow and rosy crimson that suffuse the whole plant. All the leaves are beautifully marbled and blotched with these tints." $1.00 to $2.00 each.

*CROTON MORTII.—(*New.*)

"A strong-growing, robust, and finely marked variety. The leaves are large, broadest on the upper half, acute or shortly acuminate at the apex, and narrowed to an acute base; they are of a very dark green color, being marked out by a band of golden yellow a quarter of an inch wide, and all the principal veins also being broadly marked with yellow; these latter markings meet near the edge, where there is a variegation of broken reticulated golden lines. The intermediate spaces are freckled with yellow dots." $1.50 to $3.00 each.

*CROTON WILLIAMSII.—(*New.*)

This is one of the best of the large-leaved Crotons, of free growth, with bold foliage, handsomely marked and richly colored. It is one of the red-tinted series, very strongly flushed with violet crimson. The leaf has a central band and costa of yellow, from which the pinnate veins of the same color branch out on either side, more or less forking and coalescing near the edge. These veins all change to a deep crimson, and the whole plant becomes flushed with a glowing tint of crimson, shaded with violet, which renders it extremely conspicuous, well adapted for decoration, and a strikingly effective plant for exhibition purposes." $2.50 each.

*CROTON PRINCESS OF WALES.—(*Glorious.*)

This is one of the long-leaved drooping forms of Croton, and is perfectly distinct in character. The leaves are from 1½ to 2 feet in length, sometimes plane, and sometimes strongly undulated. The ground color is green, and the variegation creamy-yellow, very variable in character. In some there is a creamy-yellow mid-rib, with a band on each side; in others the mid-rib is bright green. The markings are of the maculate style, with here and there large blotches of clear cream-yellow, and in other parts clouded markings of smaller confluent blotches and spots. Occasionally these conditions are reversed, and there are longish patches on which the ground color is creamy, relieved by a few clouded green markings. $2.50 each.

*CROTON MACARTHURI.

The leaves are of many forms, some dilated at the base and much narrowed at the opposite end; many have the mid-rib and blade twisted like a spiral, in others the edges are undulated, in others again the extremities are incurved, while there are others in which two or more of these peculiarities are present.

The color is more constant, but the markings on the different leaves are as varied as the forms assumed by the leaves themselves. The habit is *excellent*, and its pleasing and very striking variegation, fully one-half of which is yellow. The mid-ribs are yellow, and the bright green ground of the blades are spotted, blotched, flaked, and barred in infinite variety. $1.00 to $2.00.

*CROTON VARIABILIS, (FALCATUS.)

A robust variety. It has long leaves, marbled and blotched with different shades of yellow, orange and crimson.

The leaves, both in color and shape, are very variable; some are straight, others recurved, falcate or often distorted, their surface being either smooth or undulated. Some of the shades of color are peculiar to this variety, and are seen in every tint, from deep orange red to light sulphur yellow.

It is quite unlike any other Croton in cultivation. $1.50 to $2.50 each.

*CROTON FASCIATUS, (HENDERSONII.)

The ground color is a very deep green, the principal veins being marked by bright yellow lines, interlacing near the edge, where, and especially near the point, the surface is chiefly yellow, with irregular small green spots. The mid-rib forms a brownish yellow band. The green spaces between the yellow veins are more or less freckled with yellow. $1.00 to $2.00 each.

*CROTON "QUEEN VICTORIA."

It is of medium growth and free branching habit, a most desirable feature in the formation of good specimens; the leaves when well matured are from 9 to 12 inches long, and about 2 inches broad, oblong lanceolate; the ground color of the leaf is rich golden yellow, beautifully mottled with green; the mid-rib and the primary veins are of a rich magenta color, changing with age to a vivid crimson; the margin of the leaf is unevenly banded with carmine, often extending as far as the mid-rib, and so harmonising with the rich yellow as to produce a gorgeous effect. $1.00 to $2.00 each.

*CROTON CHALLENGER, (IMPERATOR.)

One of the best and most distinct of the long leaved varieties. The leaves are broadly lanceolate, spreading, and slightly recurved. The variegation is very striking. The mid-ribs are at first creamy white, which gradually becomes suffused with red, finally deepening to bright crimson carmine. The ground color of the blade is light green, but much blotched and streaked with light yellow that takes a rosy tint as the mid-rib deepens in color. $1.00 to $2.00 each.

*PHYLLANTHUS ROSEA-PICTUM.

A fine new plant, with beautifully variegated foliage.

The variegation is exceedingly rich and varied, both in color and form, no two colored leaves showing precisely the same markings with like tints. Many of the leaves are bright

crimson, which is also the color of the stem during the early stage of growth; some are a light cream color, tinged with a delicate blush, others again have a dark bronzy hue, shaded with crimson; some are dark green, with blotches and spots of rose while others are tri-colored, white with different shades of rose and green. 50 cts. each.

*GOODYERA DAWSONIANA.

A very beautiful plant. The leaves are blackish-green on the upper side, and very glossy, with lines of beautiful golden purple transversing them from the base to the apex; flowers white. $2.00 each.

*GOODYERA DISCOLOR.

A beautitul plant, grows about six inches high; foliage a beautiful dark velvety color, with white markings through its entire length, flowers white. 50 cts.

*VIBURNUM TINUS SPLENDENS.—(LAURESTINUS.)

A variety of Laurestinus with magnificent large flowers. It is also a good grower and free bloomer. $1.00.

*LUCULIA GRATISSIMA.

An old but scarce and beautiful plant; there is no plant more beautiful than this, when covered with its numerous cymes of pink colored, very fragrant flowers. $2.00 each.

*LAPAGERIA ROSEA.

A most beautiful climbing vine, bearing large rose colored flowers.

**NEW VIOLETS.*

	Each.
*Marie de Savoy. The largest of violets, color deep blue with a white centre, very fragrant. This violet will be largely grown by florists; a grand flower.....	0 50
*Rubra plena. Double red violet, very distinct.....	0 30

*FUCHSIA RAINBOW.—(*New.*)

An extremely pretty variety with attractively variegated leaves, the colors of which are rose, white and crimson on a light green ground. The flowers have a double white corolla contrasted well with the bright carmine tube and sepals, the latter being nicely reflexed. 50 cts. each.

*SALVIA GREGGII.—(*New.*)

A pretty new species which I have just introduced from Texas. This has long spikes of purple flowers; a continuous bloomer, very compact habit, and nearly or quite hardy in this latitude. $1.00 each.

*ANASACANTHUS WRIGHTII.

Another new plant which I have received from the same latitude in Texas as the Salvia. A shrub attains a height of four to five feet, bushy, flowers orange, a continuous bloomer, nearly or quite hardy. $1.00 each.

*TECOMA STANS.

A very fine plant from south-western Texas, has succeeded finely bedded out with us during summer; the flowers are a rich yellow, and very floriferous. $1.50.

*DICHORISANDRA MOSAICA.

An extremely handsome plant, of dwarf habit; leaves large, ground color of the upper side rich deep shining green, traversed with an innumerable quantity of parallel transverse fine white lines; the upper side is of a uniform deep purple. It also produces lovely rich azure flowers. $1.50 each.

DICHORISANDRA UNDATA.

Very distinct from D. mosaica, producing large ovate leaves, very dark green in color; the mid-rib and veins are of a lighter green, which gives the leaves a striped or marbled appearance. 75 cts. each.

SONERILA HENDERSONII.

A charmingly variegated plant, of dwarf habit. Its leaves are most elegantly studded over with silvery white pearl, or tiger like spots upon a rich dark olive green ground. Flowers rosy lilac. This beautiful plant proves far easier in its management than any of the former species of Sonerila. We have found this plant a profuse bloomer during the winter. Florists should grow it largely. 50 cts. each.

*PHYLLOTÆNIUM LINDENI.

A fine Aroid discovered by Mr. G. Wallis, in New Grenada, and sent by him to M. Linden, of Ghent. The plant has robust foliage, which is very persistent; the leaves are of a light glossy green, marked by bands of white, which cross the blade in almost parallel lines from a prominent mid-rib of the same color. $1.00 each.

CLEMATIS INDIVISA.

An evergreen species from New Zealand, of rapid growth, not quite hardy, suitable for a cold greenhouse. It gives in great profusion during winter its small white flowers. 75 cts. each.

*SENECIO PULCHER.—(*Beautiful Groundsel.*)

A half hardy perennial, a pretty plant, with rosy-crimson flowers, very showy, flowers late in summer. 75 cts. each. *Figured in American Agriculturist.*

*SENECIO SPECIOSA.—(*Showy Groundsel.*)

A half hardy perennial, with exceedingly bright magenta colored flowers, blooms the greater part of summer and autumn. 75 cts. each.

*VERONICA HENDERSONII.

A new species introduced from Japan, growth about two feet high, robust habit, foliage broad. of a deep rich green, dense and abundantly produced. The flowers are very large, rich deep violet blue, produced in large cluster heads composed of many spikes, the finest of the herbaceous section of Veronicas. $1.00 each.

VERONICA ELEGANS VARIEGATA.

A very beautiful hardy herbaceous plant, with elegantly variegated foliage, long spikes of blue flowers. 50 cts. each.

DRACOCEPHALUM RUYSCHIANA.—*Var. Japonicum.*

"It is a hardy herbaceous perennial, 18 to 24 inches in height, branching from the base. The violet blue flowers, 1¼ inch in length, are in terminal verticillasters, intermixed with numerous obovate acuminate leafy bracts.

"It is a very pretty and effective herbaceous plant, and one well adapted for bedding out. We strongly recommend it to all lovers of hardy plants." 50 cts. each.

CAMPYLOBOTRYS GHIESBRIGHTI VARIEGATA.

A pretty variegated variety of this beautiful plant. 75 cts.

NEW FERNS.

*ADIANTUM WILLIAMSII.—*The New Golden Maiden-Hair.*

This splendid novelty is destined to become a general favorite, and for cutting purposes its value cannot be over-estimated. It succeeds well in a greenhouse temperature. It is in

every respect quite as free and hardy as *A. cuneatum*, and will make a fine exhibition plant.

"It is a native of Peru, where it is found on the mountains growing at an elevation of 12,000 feet. $2.50 each.

*DAVALLIA FIJIENSIS MAJOR.

An elegant Fern. It has slender stipes and gracefully arching fronds; the pinnules are finely and beautifully cut, and of a bright green color.

Its graceful habit and cheerful color render it a valuable addition to our lists of Ferns requiring the temperature of the intermediate stove or warm greenhouse. $1.50 each.

*ADIANTUM LUDDEMANNIANUM.

A remarkable variety, quite unlike any other Maiden-hair Fern in cultivation.

The peculiarity which distinguishes this Adiantum from all others consists in the pinnules being crested or agglomerated at the extremities of the stipes and their rachides; they are also much crisped and curled.

Fronds erect, from 8 to 12 inches high; pinnules on short petioles, generally fan shaped, and deep green color. $1.00 each.

NEPHROLEPIS DUFFI.

A beautiful and distinct Fern. The fronds are densely crowded, from 15 to 18 inches long, pinnate, and much crested; the stipes are slender, terete towards the base, and covered with reddish brown downy scales. The pinnæ, which are small, are produced in pairs, one overlaying the other, those above being largest. The compact elegant habit of this Fern and its bright attractive color, render it a most desirable acquisition. 75 cts. each.

*LASTREA ARISTATA VARIEGATA.

One of the most charming of greenhouse variegated Ferns. It has the same kind of leathery fronds as the type, and like it is of a rich dark full green color, which sets off the distinct variegation to much advantage; the variegation consists of a band of pale yellowish green, which runs down the centre of the pinnæ, and includes the mid-rib or rachis. This will no doubt prove to be one of the most valuable of recent introductions. $1.00 each.

*ADIANTUM SPECIOSUM.

A very elegant Fern, of semi-scandent habit, with large tripinnate fronds, which frequently attain a length of 36 inches with a width of 21 inches, the pinnules of which are ¾ to 1 inch across the lobes cuneated and soriferous at the apex. The whole of the pinnules are covered with dense short hairs, giving the foliage a woolly feeling when touched. $1.50.

*ASPLENIUM NOBILIS.

This is a graceful Fern with light, lace like pinnæ and arched fronds, which somewhat resembles those of A. viviparum or A. lineatum. $1.00.

*DENNSTŒDTIA DAVALLIOIDES YOUNGI.

"In its native country it is said to produce fronds 17 feet in length; and as seen in this country under pot culture, it has caudices as thick as one's finger, and fronds 7 or 8 feet in length. To this stout and vigorous constitution, it adds the elegance and gracefulness of minute subdivision, so that its fronds, though large, are utterly devoid of coarseness; while growing to a large size, it is one of the most finely cut of all the large growing sort, of herbaceous texture, and when throwing out its boldly arching fronds, from an elevated position, it has a very fine effect." $1.00 to $2.00 each.

*GLEICHENIA MENDELII.

This is one of the most distinct and free-growing kinds. It makes a handsome exhibition plant, and will also be found very useful for decorative purposes. It is a very compact-growing species, requiring cool treatment. The pinnæ are of a thick texture, and very glaucous on the under side. Native of New Zealand.

*GLEICHENIA SEMIVESTITA.

A very pretty compact free growing species, makes a handsome specimen plant. $2.00.

ARALIAS.

Per plant.

*Filicifolia, (new.) An ornamental leaved plant of the first rank, graceful in habit, and well furnished with foliage, altogether one of the most valuable decorative plants of its family. It is a native of the South Sea Islands. The stem and leaf stalks are purplish, thickly marked with oblong white spots; the leaf stalks are sheathing at the base, and terete in the upper part, expanding into a broad leafy limb which is imparipinnately divided; the pinnæ themselves are of a bright green with a purplish costa, opposite and deeply pinnatifid..... 1 00

*Elegantissima. A beautiful plant with straight erect stem, furnished at short intervals with digitate leaves on long foot-stalks, mottled with white on a dark green ground; the leaflets, from seven to ten in number, are filiform, deeply and unequally serrate, and gracefully pendulous. The color of the foliage is a deep green shaded with brown; the mid-rib of each leaflet is of greenish white and very distinct..... 2 00

*Veitchii. A very elegant plant from the South Sea Islands, producing very narrow digitate leaves, considerably undulated; upper surface deep green, under dark crimson. One of the most beautiful decorative plants in cultivation..... 1 50

Guilfoylei. The bold pinnate leaves are made up of from three to seven stalked oblong-elliptic bluntish leaflets; these leaflets vary in size from two to three inches long, and are neatly and evenly margined with creamy white, the surface being in addition occasionally splashed with gray. A fine and distinct ornamental stove plant. 25 to 50

Reticulata. A very distinct species, of free growth; a fine decorative plant..... 0 75

*Amboinense.—(*Sciadophyllum pulchrum.*) A very ornamental plant with large bright green shining foliage. A grand decorative plant..... 2 00

ANTHURIUMS.

*Crystallinum. It produces large, cornate leaves. The emerald green refulgent leaves are spotted all over with a brighter shade, and bordered by a broad silvery or rather crystal band, which surrounds the intramarginal and four secondary nerves. These dazzling white zones are so distinct and regular that they resemble a border of incrusted silver around the sections of the blade of the leaf. The effect of this highly ornamental plant is most striking.....$1.00 to 2 00

*Regale. This is a superb ornamental foliage plant. There are several varieties of this plant. The one now offered is the finest; the leaves are heart-shaped, much lengthened out towards the apex, and rich dark velvety-green in color.....$1 to 2 00

Magnificum. The foliage of this plant is truly magnificent, a noble species, with large velvety-green leaves and broad silver veins.....50 cts. to 1 00

*Scherzerianum. One of the most striking and beautiful dwarf-flowering stove plants of recent introduction, producing beautiful brilliant scarlet flowers, each of which remains from two to three months in bloom. This charming and novel plant is easy of culture, and a most abundant bloomer..... 2 00

ALOCACIAS.

Macrorhiza Variegata. Leaves nearly as large as *Colocasia Esculentum*, broadly splashed with white. Some leaves nearly all white. For easy growth, combined with the rich variegation, makes it a very telling subject for exhibition...50 cts. to 1 00

*Sedeni. "A very beautiful hybrid, between *A. Metallica* and *A. Lowii.* The form of the leaf is perfectly intermediate between the two parents, whilst the coloring is a very striking and pleasing combination of the metallic hue of one parent, with the dark green and prominent white veins of the other. A fine foliage plant..... 1 00

*Lowii. A very beautiful plant with large shining foliage. Forms a fine specimen..... 1 50

*Veitchii. The foliage of this plant is exceedingly distinct. A grand show plant..... 1 00

Zebrina. Fine yellow leaf-stalk, with distinct black marks, rendering it a very conspicuous plant. It makes a grand specimen..... 1 00

*Metallica. A plant possessed of great beauty. Large thick shell-like leaves of a bronzy-copper color. It is distinct and admirable in every respect.....50 cts. to 1 00

Illustris. (*Gibsonii.*) The leaf-stalks are erect, and have a brownish-purple tint, color a rich green, marked between the principal veins by broad patches of blackish olive, and forming a striking contrast with the brighter green portions of the leaf surface.....30 to 0 50

Per plant.

Jenningsii. A delicate green, over which, between the principal veins, are laid heavy blotches of black, which are remarkably precise in outline and arrangement..... 0 25

DORYANTHES PALMERI.—*Queen's Land Lily.*

An ornamental flowered plant, in style intermediate between the *Yucca* and *Dræcæna*, forming a stemless bulbiform rootstock. The flower-scape rises from the centre eight feet in length, forming densely clothed pyramidal compound racemes, much like those seen in various *Yucca* species. Flowers numerous, approaching in size and form to those of the well known *Vallota purpurea*, from three to four inches in diameter, of a rich pœony crimson hue, with a white centre. Each blossom is accompanied with leaf bracts of an equally rich color as the flower. $1.00 each.

TABERNÆMONTANA CAMASSA.

(*Growers of Flowers for Market should Cultivate a House of this Plant alone.*)

A very desirable shrub of a neat compact dwarf habit, with medium small glossy bright green laurel like leaves and terminal axillary cymose racemes of double white flowers of Gardenia like outline and fragrance, which are produced on the point of every shoot. The usual temperature of a hot-house with less humidity, will produce blooms more freely and longer in succession. The petals of the flowers are lighter and more elegantly arranged than the Gardenia, and not quite so large; small plants in three inch pots will produce flowers freely. 50 cts. each.

APHELANDRA FASCINATOR.

A very fine species, with very ornamental foliage as well as magnificent flowers; the leaves are rich dark green, beautifully banded with silvery white, and underneath of an uniform purplish violet; the spikes of bloom are very large and of dazzling vermilion color. 50 cts. each.

PHILODENDRON LINDENIANUM.

Leaves of a delicate satiny green, shaded with metallic olive color on the upper surface, the under part pale green, ornamented with bands of maroon. The young leaves are of a bright chamois color, and the maroon bands of the under parts penetrate through to the upper, so that the coloring of the plants has a glistening and indescribable effect. 50 cts. to $1.

* POSOQUERIA LONGIFOLIA.

This plant forms an elegant bush, and is very free flowering. Leaves large, somewhat ovate, coriaceous and shining green; flowers tubular, pure white, produced in large corymbs of a dozen and more, waxy like, from 3 to 4 inches long, and deliciously fragrant. $1 each.

PAULINIA THALICTRIFOLIA.

A very beautiful plant. It is of a slender growth, producing very freely its beautifully cut leaves, which resembles the fronds of a highly divided Maiden hair Fern. The matured leaves are of a striking bright green, the young shoots and foliage being of a beautiful rosy tint. 30 to 50 cts. each.

ERIOCNEMA MARMOREUM.

Plant dwarf, with habit of some of the Begonias, leaves green, striped with bands of white; a beautiful plant. 50 cts. each.

MACKAYA BELLA.

This most beautiful plant is a native of Natal. The flowers have a pale lilac corolla, nearly two inches long, the throat ornamented with most delicately pencilled reticulated purple veins, tubular below, campanulate. The plant is very floriferous. 40 cts. each.

NEW CLIMBING HYDRANGEA.—(*Schizophragma Hydrangeoides.*)

This is described as clinging to trees to the height of fifty feet, producing corymbs of white flowers of the size of ordinary Hydrangeas. It clings exactly like Ivy. 50 cts. each.

NEW WHITE HYDRANGEA, "THOMAS HOGG."

This, the finest of all Hydrangeas, was sent to the United States, by Mr. Thomas Hogg, from Japan. It belongs to the Hortensia section of the family, but it is a far more free and abundant bloomer than any other; the flowers are of the purest white, of very firm texture, and continues in flower for a great length of time. 25 cts. each.

HYDRANGEA J. ELEGANTISSIMA.—(*New.*)

A very beautiful new variegated Hydrangea, foliage striped, spotted, and splashed with yellow, very handsome. 50 cts. each.

**CYANOPHYLLUMS.*

Per Plant.

*Magnificum. A grand specimen plant, having large beautiful foliage.....50 cts. to 1 50
*Spectandum. A grand plant with large velvety leaves, and whitish ribs which grow to an immense size and are very attractive. A fine plant for flower shows, fairs, &c., as it makes a beautiful specimen.....50 cts to 1 50
*Assamicum. A very beautiful foliage plant, large fine foliage.....50 cts. to 1 50

*SPHŒROGYNE LATIFOLIA.

A plant with the grandest possible foliage, large, broad and flat, deep green on top, under side cinnamon brown; very hairy leaves and stems; a grand specimen plant. One of the most attractive for exhibition. $1.00 to $3.00 each.

NEW SALVIAS.

Per plant.

Splendens Bruantii. A dwarf-growing variety, producing fine large flowers of a velvety-red color..... 0 20
Splendens Hoveyi, (Ianthina.) Habit and general character of *S. splendens*, but with dark blue flowers..... 0 20
Splendens, "Mrs. Stevens." Flowers a deep crimson..... 0 20
Nigrescens. Flowers of a blackish violet and lavender colored calyx..... 0 20
Boliviensis Verticillata. Flower spikes, eight to ten inches long, of rich glossy scarlet flower tubes..... 0 20
Bethelii, (Involucrata.) Bright rosy pink tipped with white, extra fine..... 0 25

NEW ABUTILONS.

William Fowler, (new.) A pretty variety, with bright yellow flowers..... 0 25
Snowstorm, (new.) Pure white, of dwarf compact habit, an excellent variety..... 0 25
Toison d'Or. Color deep bright yellow; a very fine variety..... 0 25
Sellowianum Marmoratum. The leaves of this beautiful variety are very large and ornamental; their color is a golden yellow, richly tessellated with green..... 0 25
Chinois, (new.)..... 0 50
Fire King, (new.) Very bright carmine, fine..... 0 50
G. Delaux, (new.) Violet carmine, new color beautiful..... 0 50
La Candeur, (new.) A very beautiful pure white flower..... 0 50
Seraph, (new.) Pure white, a long tubular shaped flower, very fine..... 0 50

NEW EULALIAS.

Japonica Zebrina. The variegation in this lovely grass is across the leaf instead of longitudinally. It grows from 4 to 5 feet in height, is a most strikingly graceful plant. Its flower spikes are equally beautiful and valuable as *E. Japonica*..50 cts. to 1 00
Japonica Variegata. Leaf long, variegated. The flower stems are from 3 to 4 feet high, very reed-like, and produce loose panicles of flowers; these panicles are hairy and erect until dried, when they become elegantly curled, closely resembling Ichdien feathers..... 0 25

PAMPAS GRASSES.—Gynerium Argenteum.

Per plant.

Argenteum. The well known Pampas Grass, with long graceful foliage, which gives forth in autumn its beautiful silvery plumes 0 25

*Album Variegata. White variegated Pampas Grass. This beautiful grass has all the grace and elegance of *G. Argenteum*, and flowering quite as freely; add to this its graceful foliage striped with silvery white.....50 cts. to 1 00

*Aurea Variegata. Gold Variegated Pampas Grass. Another beautiful variety, similar in its graceful habit to the last, but in this the foliage is striped with a deep yellow; a charming variety..... 50 cts. to 1 00

*Carmineum Rendatleri. This new Gynerium is a really majestic and very beautiful plant. The panicles, measuring more than two feet in length, are of a bright carmine rose color; if kept dry in winter, they gradually assume a light violet tint. The habit of this new Gynerium is magnificent.....50 cts. to 1 00

*Elegans Niveo-vittatis. Another very elegant Pampas Grass, handsomely variegated, 1 00

*Roseum Variegated. Foliage finely variegated with stripes of rose..... 1 00

*Wesserlingi Variegatum. A very beautiful variegated Grass..... 1 00

*Jubatum. This new variety of Pampas Grass from Chimborazo, is the earliest flowering of the family, and very free. This early flowering will make this fine variety intermediate between the Arundo Conspicua and the ordinary Pampas Grass..... 1 00

NEW POINSETTIA.

Pulcherrima Plenissima, (new Double Poinsettia.) This magnificent plant is remarkable for its floral bracts, the size of the heads in which they are produced, and their marvellous brilliancy of color. They are gathered into clusters, which fill up the centre, so that the whole inflorescence is full and rosette-like, and of a most vivid and brilliant scarlet color.....30 cts. to 0 75

Pulcherrima Major. A great improvement on the old species, both in the size of the individual bracts, and also in the far larger heads, which are of a bright scarlet, tinted with violet cerise.....30 cts. to 0 50

Rosea-Carminata. In fine variety, the head of bracts are larger, smooth, and of a brilliant rosy carmine.....30 cts. to 0 50

DIEFFENBACHIA.

Brasiliensis. A handsome variety, the leaves averaging eighteen inches in length, by eight or nine inches in width; the ground color of the leaf is deep green, and the whole surface is mottled with small blotches of greenish yellow and white A beautiful plant.....30 cts. to 0 75

Bausei. It is a stocky-growing broad-leaved variety, with yellowish green leaves, which are irregularly edged and blotched with dark green, and also spotted with white, the marking being particularly effective..... 30 cts. to 0 50

Bowmanii. Very large bright green leaves, blotched and marked with golden green; a grand specimen plant.....30 cts. to 0 50

Weirii. It is of dwarf habit, the foliage of a bright green color, thickly blotched and spotted with pale yellow. This is one of the finest of the Diffenbachias....30 cts. to 0 50

Baraquiniana. A fine vigorous plant with white stems, leaves green, spotted and blotched with pure white 0 50

Picta. A very beautiful foliage plant, leaves a deep green, mottled with white; beautiful.....30 cts. to 0 50

MARANTA.

Massangeana. A very distinct dwarf species. The variegation consists of three distinct colors. The mid-rib veins and middle portion of the leaf are silvery white, faintly tinged with bluish green, then a broad band of blackish hue, the whole being surrounded by a belt of bright green, margined with a thin line of a lighter shade.....50 cts. to 0 75

Per plant.

Illustris. A beautiful marked species, with leaves of a rich lustrous green, being a rival to *M. Lindennii* and *M. Veitchii*, assuming the habit of *M. rosea picta* whilst young, Towards maturity the tracery changes to a broader white one within the margin.....75 cts. to 1 00

Regalis. Very beautiful, with fine foliage distinctly and finely marked..... 0 50

Chimboracensis. Leaves bright green with a dark feathering, edged with white..... 0 30

Lindenii. Foliage very dark, with a golden feather along its centre. A fine species.....30 cts. to 0 50

Makoyana. A very ornamental dwarf growing species; leaf-stalks slender reddish purple, blade of the leaf ovate, ground color olive green, beautifully and regularly blotched with creamy yellow, of a transparent character; on each side the mid-rib are oblong dark green blotches, whilst the under side is rosy-red.....30 cts. to 0 50

Tubispatha. An elegant and very attractive species of erect habit of growth; leaves some 9 or 10 inches long, light green, ornamented on each side the mid-rib with oblong blotches of cinnamon brown..... 30 cts. to 0 50

Veitchii. The leaves of this grand plant are upwards of twelve inches in length; "the under surface of a rich purplish wine color, the upper of a deep shining green, blotched with conspicuous patches along each side, of a yellowish green, almost verging on grey. The contrast is very marked, and the whole plant very beautiful.....50 cts. to 1 00

Porteanna. This is a vigorous growing species, with fine large foliage feathered with white..... 0 30

Virginalis. Fine broad foliage, mid-rib has a broad band of white; a very fine plant, 0 50

Van Den Heckei. Leaves dark satin-like, embellished by a large central line, surrounded by a silver disc..... 0 30

Bicolor. Deep green marked with dark brown..... 0 30

Princeps. This plant attains a height of from three to four feet, the blade of each leaf measuring upwards of a foot in length; centre dark metallic green, margined with light green..... 0 50

PANDANUS.—Screw Pine.

Per plant.

Javanica Variegata. This variegated Screw Pine is well known as one of the finest decorative plants; leaves green, with broad stripes of pure white, gracefully curved; very beautiful.....50 cts. to 1 50

Utilis. Screw Pine; very fine decorative plant, with recurved graceful foliage, 50 cts. to 1 00

Veitchii. This splendidly variegated Screw Pine is one of the most attractive plants. The leaves which are of a light green color, beautifully marked with broad stripes and bands of pure white are most gracefully curved, which elegant habit of growth renders the plant extremely effective.....50 cts. to 1 50

Graminiformis. This has narrow light green foliage, a pretty graceful species..... 0 50

FICUS.—India Rubber Tree.

Elastica. India Rubber plant. Fine large shining foliage; fine for bedding..... 0 50

Macrocarpa. A free growing shrub, with smooth terete stems and thin coriaceous glossy ovate-oblong entire leaves, five to six inches long and three inches broad.... 0 50

Macrocarphylla, (*Artocarpus imperialis.*) A robust vigorous grower with immense foliage..... 1 00

Parcelii. A splendid decorative plant with beautifully variegated foliage. The leaves, which are of large size, thin texture and coarsely serrated on the margins, are of a bright green color, profusely, but irregularly blotched with creamy white and dark green..... 0 50

Australis. Foliage, a pretty ornamental plant..... 0 30

Lucida. Leaves bright green, shining..... 0 30

PHORMIUM.—New Zealand Flax.

Per plant.

*Atropurpureum. A very desirable species; habit the same as *P. tenax;* leaves reddish purple. This makes a distinct decorative plant for the conservatory, and a fine subject for the sub-tropical garden. A distinct and beautiful plant.....

*Colensoi Variegatum. This beautiful plant has fine broad erect pointed dark green leaves, elegantly banded at the margin with one or sometimes with two conspicuous stripes of creamy white. It has the same mode of growth as *P. tenax*, but is altogether distinct, while its more erect habit gives it quite a distinct appearance, $1 to 2 00

*Cooki Variegatum. An elegant, somewhat dwarf growing plant; leaves green, beautifully striped with golden yellow. Native of New Zealand. Price on application.

*Veitchii Variegatum. This is a finely variegated form of the well known New Zealand Flax. The leaves are of the same size as the species, with conspicuous broad stripes of creamy white running out their whole length, and contrasting well with the light shining green ground color. It is a truly noble plant..... $1.00 to 2 00

YUCCA.

Alœfolia Variegata. We received a special premium for a fine specimen of this plant from the Maryland Horticultural Society. Leaves green, broadly striped and banded with yellow; a beautiful variegated plant.....75 cts. to 1 50

*Quadricolor. The foliage of this is long, recurved and beautifully variegated. A very fine plant..... 1 50

DIPLADENIA, (Echites.)

Amœna. Flowers of a soft pink color, suffused with rose, somewhat resembling *D. Splendens*, but in every respect a great improvement on that variety, being of superior form, the lobes being stiff and round, instead of reflex and pointed. For summer blooming in the greenhouse, no climber is more lovely than this..... 0 50

*Boliviensis. A very free flowering white Dipladenia. It is very compact, producing an abundance of flowers in a much smaller state than almost any other species. The foliage is medium in size, and of a light glossy green color. The flowers *pure white*, with a distinct yellow centre..... 1 00

*Hybrida. A very floriferous variety; flowers resembling *D. insignis*, both in color and form, but are produced in much greater profusion..... 1 00

JASMINUM.

Duchess d'Orleans. Flowers double, white like miniature white roses, deliciously fragrant, a very valuable plant..... 0 30

Grand Duke. Flowers double, white like miniature white roses, deliciously fragrant, similar to the above, but distinct..... 0 30

Grand Duchesse de Tuscany. Flowers double, white like miniature roses, deliciously fragrant, in the style of the two preceding; very fine..... 0 40

Trifoliata. Another fine variety, flowers white like miniature roses, deliciously fragrant..... 0 40

Hirsutum, (single.) A very free flowering winter blooming species..... 0 50

No plants can be more beautiful or fragrant than those blooming freely through the summer. All who grow choice plants should possess them.

IXORAS.

*Regina. An extremely attractive and distinct variety, freely producing large dense trusses very full of pips, which are of a rich violet salmon color. It is of a dwarf compact habit, and the flowers are of a deep shade of color; the trusses are of a somewhat similar shape to those of *I. coccinea*, but the plant is much more compact in growth than that variety. It is a most superb and effective plant..... 1 00

Per plant.

*Prince of Orange. This variety is distinct in color from any other, and is a valuable addition to this ornamental genus. It is of free compact habit; flowers rich orange red, tinged with violet towards the centre, and produced in large and dense terminal corymbs..... 1 00

*Fraseri. A most effective and beautiful variety, of free and vigorous growth, with rich dark green foliage, and numerous large, terminal, globular flower heads, with blossoms of a brilliant flamed salmon color, upon carmine scarlet flower tubes, and rich under pedicels or flower stalks..... 1 00

Amabilis. Of vigorous and compact habit, deep orange salmon, well formed flowers, borne in large trusses, which are produced in great profusion..... 0 50

*Colei. A cross between *I. Coccinea* and *I. Alba*, having the strong, free robust habit and large foliage of the former, and the pure white flowers of the latter..... 1 00

*Williamsii. It is a free growing plant and an abundant bloomer, producing immense trusses of large flowers, of a very distinct and pleasing shade of reddish salmon. It is one of the very best varieties in cultivation..... 1 00

Coccinea Superba. A beautiful variety, with very large heads of brilliant orange scarlet flowers, produced freely..... 0 50

Crocata. Deep orange, free grower, and profuse bloomer..... 0 50

ALLAMANDA.

Hendersonii or Wardleiana. A distinct and beautiful species, which blooms quite small and continues flowering nearly the whole year, the flowers are circular, of great substance; color a rich deep yellow, fine habit.....25 cts. to 0 50

Nobilis. A distinct and beautiful new species, flowers equally as large as the finest forms of *A. Hendersonii*, of a pure rich yellow, but which are greatly superior in form to others in cultivation, by their large firm lobes being more widely imbricated..... 0 50

CLERODENDRONS.

Balfouri. A beautiful climbing species, which blooms profusely on the young wood, flowers scarlet and white..... 0 25

Thompsonii. A very beautiful climbing stove plant, with crimson flowers, free, vigorous grower and profuse bloomer..... 0 25

Speciosum. This beautiful plant forms a fine intermediate variety between *C. Splendens* and *C. Balfouri*, rich rose or violet tinted crimson..... 0 30

Coronaria. A very desirable plant, flowers double, white, very fragrant, fine for bedding out..... 0 25

Clerodendron Viscossissima. This is a handsome hardy shrub from Northern China, the flowers emit a delicious perfume; flowers lilac rose, in dense terminal corymbs, a very desirable new shrub..... 0 50

CALLIPHRURIA SUBEDENTATA.

This is a very beautiful free flowering plant; flowers pure white, fragrant, similar to *E. Amazonica*.....25 cts. to 0 50

EUCHARIS—Amazonian Lily.

Amazonica. Large pure white fragrant flowers, full four inches in diameter, and are produced in abundance on strong plants.....25 cts. to 0 50

Grandiflora. Large, pure white, very fragrant.....25 cts. to 0 50

*Candida. A very beautiful and rare species, flowers pure white..... 1 50

CHOISYA TERNATA.

This is a free growing and beautiful plant, nearly or quite hardy, a profuse bloomer, pure white sweet scented flowers, like orange blossoms. This plant will be largely forced for its flowers, like Deutzia Gracilis. 50 cents each.

ANTHERICUM VARIEGATUM.

Per plant.

A most striking novelty. The foliage is of a bright grassy green, beautifully striped and margined with creamy white..... 0 30

ANTIGONON LEPTOTUS.

A beautiful plant of climbing habit, with numerous racemes of rose colored flowers, showing a still richer tint in the centre. The profusion of its bloom is such as to give the resemblance of Roses at a distance, hence one of the Mexican names is "*Rosa de Montana*," or Mountain Rose. Described by its discoverer as the most beautiful climber he had ever beheld..... 0 50

DAHLIA MAXMILIAN.

A very large growing species from Mexico. Flowers during winter in a warm greenhouse. Flowers semi-double, purplish lilac..... 0 75

IMATOPHYLLUM MINIATUM.

A very excellent evergreen, warm greenhouse or cool stove plant, intermediate between *Clivia* and *Vallotta* or *Amaryllis*, in style of growth, with dark green leaves and large corymbs of erect, large, clear rich salmon or light flame colored cup like blossoms..... 0 75

LASIANDRA MACRANTHA FLORIBUNDA.

A magnificent plant of good habit and a most profuse bloomer; the flowers are rich violet blue, between five and six inches in diameter, and produced nearly all the year through. It requires the same treatment as *Pleroma Elegans*, but it is superior to that plant, both in habit and size of its flowers..... 0 50

RUELLIA MACRANTHA.

A Brazilian plant. Flowers freely of a fine violet-carmine, a pleasing color. This plant is of free growth in a warm house, flowering profusely and showy. One of the very finest winter blooming plants of recent introduction. 50 cts. each.

ERANTHEMUM LAXIFLORUM.

It is a plant of much beauty. The corolla tube is long and slender, the lobes of the limb nearly of equal size, spreading, and of a purplish crimson, quite unique. The flowers are continuously produced during the autumn and winter months. 50 cents.

GALATHEA CŒLESTIS.—(*Blue Daisy.*)

An old but desirable plant. "Flowers are daisy-shaped delicate blue with a yellow disc." Flowers profusely during the winter months. 50 cents.

TORENIA FOURNIERII.

The habit is more compact than T. Asiatica, the flowers are richer in color and more freely produced. For pans, baskets or vases, this will be found to be a very useful and interesting plant. It succeeded admirably with us the past summer bedded out. 20 cents each.

TORENIA BELLONII.

A pretty variety similar to the last in habit, and like it, suitable for bedding out. Flowers bright yellow, with a black eye, very distinct. 25 cents.

PANAX FRUTICOSUM.

Per plant.

A plant closely allied to Aralia, with beautiful fern-like foliage; a fine decorative plant..... 0 50

STEPHANOTHUS FLORIBUNDA.

Per plant.

This plant is not new, but as a valuable stove climber it is unequalled. The flowers are pure white, of a waxy texture very persistent. Some large plants in one of my greenhouses were covered with bloom the whole of the past spring and summer. Florists should grow it extensively. ..... 30 cts. to 0 75

TABERNÆMONTANA CAMELLIFLORA PLENO.—*Glorie of the Day.*

This plant is not new, but it is not cultivated to the extent it deserves; it succeeds well bedded out during summer, giving its lovely double fragrant flowers of the purest white in great profusion, excellent for bouquets, &c. 0 30

COPROSMA BAUERIANA PICTURATA.

A free-growing plant. The leaves are ovate and bluntly rounded, and they have a smooth surface of pale green, marked with blotches of pale yellow and creamy-white, spreading out from the mid-rib on one or both sides, and assuming a variety of grotesque forms 0 50

CURCULIGO RECURVATA.

A remarkably graceful Palm-like plant, suitable for decorative purposes ..... 25 cts. to 1 00

EUPATORIUM TRISTE.—(*Hebechinum Macrophyllum.*)

Flowers pure white, blooming in January and February. A very useful plant for Florist 0 25

ALOCACIA.

Alba Violacea. Stems blue, striped white, large foliage 0 25
Marshalli. The leaves are a bright green, marked between the principal veins with broad wedge-shaped blotches of blackish purple 0 25
Jenningsii. A delicate green, heavy blotches of black, which are remarkably precise in outline and arrangement 0 25
Bataviensis. Foliage and stems dark purple ..... 25 cts. to 0 50
Auriculata 0 25
Javinica. Beautiful green 0 30

This class of Alocacias bed out finely.

NEW TUBEROUS-ROOTED BEGONIAS.—Single Flowered.

The following novel and beautiful varieties will be found admirably adapted for the summer and autumn decoration of the greenhouse and conservatory; for they produce in the utmost profusion magnificent flowers of very large size, and great variety in color. They do not require stove cultivation, but will succeed well in a greenhouse. The tubers rest during the winter months, similar to Gloxinias, and can be easily re-started into growth in the spring. Their profuse flowering quality, and the charming variety of color of their blossoms, render them extremely showy and effective:

Per plant.

*Davisii. This is the most important acquisition that has been made in the tuberous-rooted section of the Begonias, since the introduction of *B. Veitchii*. It is a native of the Andes of Peru. It is of the dwarfest habit, the leaves and flowers all springing from the root stock. The scapes, which rise erect above an elegant bluish green foliage, are bright red; each scape bears three dazzling scarlet flowers 1 00
*Frœbelii. A splendid new species from Ecuador, very distinct and attractive, producing well above the foliage, erect bunches of large brilliant scarlet flowers; the foliage is of a bright green color, furnished on the under side with a thick covering of white hairs ..... 25 cts. to 0 50
*Onyx, (Van H.) Flower very large, vermilion, shaded with very lively orange, reminding of the color of *B. Veitchii* 0 75
Sutherlandii. Flowers yellow, distinct and fine 0 25

Per plant.

Vesuvius. A fine variety, producing very large flowers of a rich orange scarlet, superb, 0 50
Fannie E. Saul. The flowers are large, of a brilliant amaranth, of free growth and profuse bloomer 0 25
*Crepuscula, (Lem.) Flowers large and round, color salmon buff, a vigorous plant and free bloomer 0 75
*Diamant, (Lem.) Flowers very large, of a vivid rose color, habit dwarf and compact, beautiful 0 75
*Eldorado, (Lem.) A free flowering plant, flowers bright yellow 0 75
*Incendie, (Lem.) Flowers of a glowing orange, very fine and rich 1 00
*Jules Janin, (Lem.) Flowers beautiful carmine rose, very large, free flowering, a fine variety 0 75
*Model. A free flowering variety, with finely formed flowers of a beautiful carmine rose 0 75
*Trophee, (Lem.) A free flowering variety of neat habit, flowers cinnabar red 1 00
*Rubens, (Lem.) Color coral rose, very large, a magnificent flower 0 75
*Oriflamme, (Lem.) Very large flowers, of a carmine vermilion, brilliant and showy; vigorous, robust grower, with large foliage 1 50
*Velours, (Lem.) Flowers of a rich vermilion, large and freely produced 1 00
*Wilh. Liebnecht, (Lem.) Flowers of immense size, color crimson vermilion and orange, very brilliant, fine habit and free bloomer 1 00
*M. Marcotte, (Lem.) Flowers large, of a beautiful tender rose color, very large and fine, a magnificent plant, superior to *B. Rosæflora* 1 00
*Wilh. Pfitzer, (Lem.) Flowers rich carmine vermilion, centre solferino, very large in the way of *B. Veitchii*, but superior; magnificent 1 00
*Message de Louvrex, (Van Houtte.) Splendid orange red 1 00
*Chambersii. A hybrid between *B. Pearcei* and *B. Sedeni*, the flowers are freely produced, large rosy salmon inside, pink without 0 50
*Chas Baltet, (Lem.) Large flowers of a rich vermilion, a beautiful variety 1 50
*Brilliant. Flowers orange crimson, very rich, superb 1 50
*Excelsior. A large flower, cinnabar red, very fine 1 00
*Emperor. Orange scarlet flowers, very brilliant, a grand flower 1 50
*John Laing. A brilliant carmine, large and fine, very showy 1 50
Chelsoni. An elegant hybrid; it is of good, compact habit, flowers large, drooping, bright orange, shaded with red 0 25
Pearcei. The foliage is very pretty colored, flowers yellow, distinct and fine, a bulbous rooted species from South America, and very distinct 0 50
Boliviensis. The flowers are in great abundance, bright shining red in color 0 30
Sedeni. This is a cross with *Boliviensis*, but larger leaves; the flowers are of the richest magenta color, and of large size 0 25
*Queen of Whites, (new.) Fine free grower and good habit; flowers large, pure white, the finest white 1 50
*Ch. Boinet, (new.) A glowing carmine, large fine flowers 2 00
*Mont Blanc, (new.) A vigorous grower and free bloomer, large white flowers 2 00
*Solfatare, (new.) Vigorous and fine habit, pure yellow flowers 2 00

*Seedlings raised from our finest varieties, 20 cts. each, $1.50 per dozen, fine for bedding.

NEW TUBEROUS-ROOTED BEGONIAS.—Double Flowered.

Per plant.

*Argus, (Lem.) Fine double flowers of a rich vermilion, good habit and free bloomer $1 50
*Balsaminæflora, (Lem.) An exceedingly beautiful full double flower like a double Balsam, color orange red, fine floriferous habit, superb 1 50
*Calypso 2 00
*Glorie de Nancy, (Lem.) A magnificent variety, with large very double beautifully colored carmine flowers. The plant is of erect growth and very floriferous; a grand plant 2 50
*Lemoinei, (Lem.) The flowers of this beautiful plant are like a double Anemone, of an orange vermilion, very beautiful 2 00
*Louis Van Houtte, (Lem.) Flowers of enormous size, brilliant orange scarlet, very double, a magnificent flower 2 50
*President Burelle, (Lem.) Flowers large and double, of a crimson scarlet, of a fine habit and free bloomer, a grand plant 2 50

Per plant.

*Salmonea Plena. Flowers of a pleasing shade of deep rosy-salmon, fine habit and profuse bloomer, *very distinct*, fine..... 2 00

*W. E. Gumbleton. Flowers large. and of a rosy-salmon orange, profuse bloomer. A distinct and very beautiful new double..... 2 50

*Phosphorescent, (Lem.) Flowers very large and double, brilliant deep vermilion, an exceedingly beautiful variety..... 2 50

*BEGONIA ROEZLII.

A beautiful shrubby species from Mexico, flowers profusely in large umbels; color a rich carmine, a grand plant..... 1 00

BEGONIA WASHINGTONIANA.

A very fine winter blooming variety, flowers pure white..... 0 50

BEGONIA GLAUCOPHYLLA SCANDENS.—*Climbing Begonia.*

A beautiful climbing species, admirable for hanging baskets; free grower and profuse bloomer..... 0 25

A very beautiful species of shrubbery or bush-like growth, a free bloomer, color bright scarlet, a fine plant..... 0 25

SAUL'S DOUBLE CHINESE PRIMROSES.—
Primula Sinensis Pleno.

Mrs. John Saul, (Saul.) This superb variety was raised in our establishment. The flowers are large, pure white, petals overlapping, beautifully serrated, of fine form, robust and compact habit. profuse bloomer. Can be safely recommended as the best double white Primula out..... 0 50

*Mary C. Saul, (Saul.) A seedling raised in our establishment, the flowers are as large as a carnation, very double, of the purest white, fringed, habit strong and vigorous; the finest white Primula ever raised..... 2 00

*Fannie E. Saul, (Saul.) Another of our seedlings, a counterpart in every particular of the last, except that the beautiful white blooms are occasionally flaked with vermilion, a magnificent flower..... 2 00

*Rosina M. Saul, (Saul) This beautiful double flower is in the style of the two last. The strain is of great vigor. The flowers, which are fully as large, are of a rosy crimson, fringed..... 2 50

*Winefred Lawley, (Saul.) This plant is of the same vigorous strain as the others, flowers fully as large and very double, the color is distinct and novel, a beautiful pink shaded with lavender, fringed..... 2 50

We recommend these beautiful Primulas to our patrons, believing they are unequalled by any others in cultivation. Their merits are well known to the florists of Baltimore and Washington.

*PRIMULA S. GRANDIFLORA RUBRA, very large double red..... 1 00

PRIMULA SINENSIS FIMBRIATA.

Fine seedling plants, raised from the finest strains of single flowers; various shades of colors..... 0 25

PRIMULA CURTUSOIDES AMŒNA.

PRIMULA C. AMŒNA ALBA.

Per plant.

Beautiful new Japanese Primroses. The flowers of the first are of a rich rosy purple, the second a pure white of good size, borne in large clusters, highly interesting as an early spring flowering plant for pot culture, nearly or quite hardy 0 40
Hose-in-Hose Polyanthus 0 20
Fine seedling Polyanthus 0 20
Auricula, Alpine 0 25

NERIUM.—Oleanders.

We have given much attention to the collecting of the very choicest Neriums from the finest growers in Europe, and the following may be confidently relied on as the finest in cultivation :

Per plant.

Album Maximum. A very large and pure white semi-double $0 30
Atropurpurea plenum. Dark purple, double rich color 0 50
*Cardinale, (Double.) Rich purple vermilion, lighter in centre of petals, one of the finest dark Neriums in cultivation 1 00
*Flavum duplex, (new.) Double yellow, fine, distinct 0 50
Geant de Batailles, (*s*) Light blush centre, petals edged with crimson 0 50
*Gloriosum, (new.) Flowers very large and double, of a brilliant cherry crimson, extra fine 1 00
Grandiflorum plenum. Cherry crimson, large and double 0 25
Jean d'Arc. Pure white, double 0 40
Madoni Grandiflorum, (new.) Beautiful double pure white flowered splendens, free blooming, superb 0 30
Mad. Chas. Baltet. Cherry carmine, large and very double, a fine variety 0 50
Souvenir de Claude Sahut. Rich carmine, large and very double, very beautiful 0 40
*Professor Durand, (new.) Flowers pale yellow, double 0 50
*Luteum Novum, (new.) Fine new yellow, single 0 40
*Lilian Henderson. See *Novelties.*

On small plants the double varieties frequently produce semi-double flowers.

BOUVARDIAS.

For autumn and winter blooming plants, the *Bouvardias* are well known to every florist. They are of the easiest culture, giving their rich colored flowers in great profusion.

Per plant.

*Flavescens, (new.) Flowers like Jasminiflora, but of a canary yellow, a very desirable novelty $0 50
*Sanguinea, (new.) Color crimson vermilion, a very fine new variety 0 50
Lady Hyslop. Flowers similar to *Elegans*, of a bright rose color 0 25
Alba Odorata. Pure white centre of great substance, and very richly fragrant 0 25
Candidissima. Racemes of pure white blossoms, each three-quarters of an inch in diameter 0 25
Humboldti Corymbiflora. The blossom is the largest hitherto known in the group; the flower tube three inches in length, snow white and exquisitely fragrant 0 25
Jasminoides Longipetala. Compact racemes of large pure white trumpet-like flowers, with petal lobes nearly an inch in width 0 25
Umbellata Alba. Broad pure white petal lobes; is in the style of *B. Davidsonii*, but much neater in its leaf growth 0 25
Leiantha. Dazzling scarlet 0 25
Floribunda. Flowers orange scarlet, very distinct and fine 0 25
Hogarth. Splendid raceme, rich scarlet, vigorous grower, fine habit 0 25
Longiflora. Snow white, long tube, beautiful 0 25
Hendersonii. Delicate waxy flesh color, a sport from *Hogarth* 0 25
Elegans. Color a scarlet carmine, flowers and trusses of immense size 0 25
Laura. Bright pink 0 25
Jasminoides. A beautiful species in the way of *B. Longiflora*, with larger terminal and auxiliary racemes of equally fragrant snow white flowers 0 25
Davidsonii or Vreelandi. The finest of all white *Bouvardias*, and of the free growth of its parent *Hogarth* 0 25
Rosalinda. Bright rose, large and fine 0 50

DRACÆNA.—Dragon Tree.

Our rich collection of Dracænas has been awarded the first premium by the Maryland Horticultural Society for several years, and first premium at the "Cincinnati Exposition," in September last. For decorative purposes these plants are now extensively grown, their broad dark tropical foliage and graceful habit render them very appropriate.

Per plant

*Dracæna Superba. This is without doubt the most slender and graceful growing variety ever offered, and is one of the finest hybrids yet sent out. For table decoration and pot culture, it is unsurpassed. The leaves are pendulous, arching, from 12 to 18 inches long, from 1 to 1½ inches broad, linear lanceolate, dark bronzy green, margined and striped with bright crimson. The young leaves are rosy crimson 3 00

*Princess Margaret. A very fine variety, remarkably distinct in the color and markings of its foliage. The leaves with their foot-stalks are about eighteen inches in length. When first expanded they are creamy white, slightly shaded with green of a tint quite unlike any other Dracæna in cultivation, with a few oblique stripes of deep green, with a pale crimson mid-rib. The light colored portions of the leaf become suffused with delicate rose ..... $2 to 3 00

*Dracæna Frederici. It has a compact, yet graceful habit of vigorous growth. Its leaves assume a rich rosy crimson color, and is a grand decorative plant. One of the most valuable, as it colors beautifully in a small state ..... $2 to 3 00

*Macarthuri. Of very dwarf compact growth and bright colored foliage. They are very elegant both in form and coloring, the latter being especially brilliant and attractive, rendering this variety one of the most distinct in cultivation. In many leaves almost the entire upper surface is colored with a vivid rosy carmine, interrupted by a few lines of deep olive green; in others the bright coloring is confined to the margins ..... $1 to 2 50

*Roseo-picta. A plant of robust habit and bold aspect. The leaves are beautifully colored with a delicate rose tint which deepens by age to a bright carmine, finely contrasting with the ground color which is a deep olive green ..... $1 to 2 50

*Terminalis Alba. This is *D. terminalis*, but with white variegation. The ground color bright green, with bold pure white variegation, the upper leaves being white, with here and there a bar or band of green, in some cases large sectional patches are colored white, while leaf-stalks are also edged with white, colors very early ..... $1.50 to 2 50

*Bausei. Of grand habit, highly colored and most effective. Leaves recurved, dark bronze, the margin crimson, narrow in the lower leaves, becoming broader and more developed on the upper ones, the youngest and uppermost being broadly and brilliantly edged with deep rose, and the margins of the leaf-stalks also richly colored ..... $1.50 to 2 50

*Taylori. Of very stout habit, a hybrid between *D. magnifica* and *Mooreana*, dwarf and dense. Leaves very broad ovate-oblong, erect, with reddish stalks, having something the aspect of those of *D. Fraseri* ..... $1 to 2 00

*Wisemannii. A handsome stove shrub, with the leaves of a bronzy hue, red at the margins, and breaking out into white in the younger growth ..... $1 to 2 00

*Robinsoniana, (new.) A robust growing variety, having leaves from 15 to 18 inches long, and from 3 to 3½ inches broad; the ground color is a light olive green, very much striped with bands of bronzy crimson and greenish white; the petioles are margined with crimson. The coloring is unlike that of any other Dracæna, and marks the plant as distinct ..... $1 to 2 00

*Elegantissima, (new.) A dark colored variety, with undulated leaves of dense habit. The leaves are of a deep bronze, with a metallic lustre, and very distinctly margined with bright crimson; in the young leaves crimson of a lighter shade entirely predominates, the bright coloring giving the plant a glowing and attractive aspect ..... 75 cts. to 2 00

*Speciosa, (new.) The leaves are broadly striped or margined with a yellowish creamy white, stained and edged with light rosy pink; the ground color is a rather light but pleasing olive green; it is therefore a tri-colored plant, distinct and attractive ..... 75 cts. to 1 50

*Hybrida. The older leaves are of a deep green color, margined with bright rose; as the plant attains age, the latter formed leaves become entirely suffused with deep rose and creamy white, the foot-stalks being also of deep rose ..... 50 cts. to 1 50

Per plant.

*Mooreana. It is a noble plant, the leaves being fully four inches in width, two to three feet in length, and beautifully undulated. The habit is compact, and especially suitable for decorative purposes. The base of the leaf-stalk and the mid-rib are of a bright reddish crimson color, which, in the leaf itself, changes to a glossy bronze.....50 cts. to 1 50

*Amabilis. This is a magnificent variety. The ground color of the leaf is bright glossy green, becoming beautifully marked and suffused with pink and creamy white, the young leaves being occasionally of quite a rosy color..... 50 cts. to 1 00

*Baptistii. The leaves are green, 1 to 1½ foot long, four inches broad, margined and irregularly and obliquely striped with narrowish creamy white flakes, passing through pale pink to deep rose. The older leaves frequently become flushed with rose.....50 cts. to 1 00

*Excelsa. Large leaves of an erect arching habit, and of a deep bronzy hue, margined with deep magenta crimson. This bright color is continued throughout the edge of the leaf, breaks out into streads and patches.....50 cts. to 1 00

*Fraseri. The leaves a foot or upwards in length, and as much as five inches broad, are margined with bright rosy lake. The principal part of the leaf is of a blackish purple with a glaucous bloom, a marginal stripe of deep magenta runs down into the edge of the petiole, while here and there besides may be seen a streak of the same rich rose color.....50 cts. to 1 00

*Grandis. The leaf is a foot long and 4½ inches broad, with striated surface, which is of a shaded deep green, broadly edged near the base with blush white, the extreme margin being of a deep magenta rose, which becomes more or less suffused over the pallid portions.....50 cts. to 1 00

*Guilfoylei. A most superb species, with long pendant lanceolate acuminate leaves; the ground color is bright green; fully one-half the leaf, however, is striped with white and bright rosy red, the latter color mostly forming the border in addition.....50 cts. to 1 00

*Magnifica. This is a very handsome plant; leaves nearly two feet in length and eight inches in breadth, when the plant is well grown. The foot-stalks are reddish purple, and the leaves are rich bronzy brown suffused with pink, becoming darker with age.....50 cts. to 1 00

*Metallica. This is the finest of all the dark colored Dracænas, the leaves being as much as sixteen inches long. These, together with the sheathing leaf-stalks, are of a uniform rich coppery purplish hue when young, becoming a dark purplish bronze when mature .....50 cts. to 1 00

Nigro-Rubra. A robust growing and exceedingly beautiful plant, leaves upwards of eighteen inches in length, ground color rich brown, the centre crimson, shaded with rose; it is a most desirable variety .....50 cts. to 1 00

Regina. This is a plant producing very large and broad leaves, the ground color is bright green, but fully one-half the leaf is variegated with creamy white, which produces a rich and most beautiful effect.....50 cts. to 1 00

Shepherdii. This plant takes on its distinctive coloring gradually on the older leaves, the young ones being green, and showing paler green stripes on those parts which take on at a later period the peculiar bronzy orange hue. It is very free growing, of ample proportions, the broad oblong linear leaves 2¼ feet long and five inches broad, tinted at the edge with the same bronzy orange color.....50 cts. to 1 00

Splendens, Of dwarf and compact but free habit, densely furnished with short recurved leaves, about nine inches long and four inches broad. The color is a deep bronzy green, breaking out in the young growth into bright rosy carmine. The brighter coloring appears sometimes in stripes, and sometimes occupies the whole surface.....50 cts. to 1 00

Imperialis. The variegation is in this case of a clear white combined with deep rose, and is most effective. The leaf-stalks are about four inches long, and marginate. The color is a deep sap green, breaking out freely in the young leaves into white.....50 cts. to 1 00

*Macleayi. Leaves are some eighteen inches long and about four inches wide, of a rich dark metallic bronze. It is very distinct in habit and color, and one of the most beautiful.....50 cts. to 1 00

*Porphyrophylla. A noble stove shrub of erect habit, with bold broadly oblong leaves of a fine deep bronzy green color, having a glaucous bloom on the under surface.....30 cts. to 0 75

Braziliensis. A robust growing species with large, broad green foliage..... 0 50

Cooperii. Foliage gracefully recurved, rich crimson.....25 cts. to 0 50

Charlwoodia Serratifolia. Foliage green, erect.....25 cts. to 0 50

Per plant.

Ensifolia. Foliage green.....25 cts. to 0 50
Elegans Rubra..... 0 50
Ferrea. Foliage broad dark crimson.....30 cts. to 0 50
Haageana. A very distinct variety, with green foliage.....30 cts. to 0 50
Nigrescens. Foliage very dark, blackish brown, a very distinct variety..... 0 50
Spectabilis. Foliage long green, very graceful.....25 cts. to 0 50
Terminalis. Foliage bright crimson.....25 cts to 0 50
Terminalis Stricta. A variety with brilliant foliage.....30 cts. to 0 50

Specimens and half specimens of all can be supplied during summer and autumn, suitable for exhibiting at Fairs, Flower Shows, &c., *at moderate prices.*

CORDYLINE.

Per plant.

Australis. A very long, narrow, graceful foliage.....25 cts. to$0 50
Indivisa. Long, narrow, graceful foliage.....25 cts. to 0 50

Australian plants of much grace and beauty, admirable for vases, single specimens on lawns, &c.

CROTON.—(Codiœum.)

These ornamental plants are natives of the South Sea Islands; they are among the most beautiful of variegated plants, the leaves being blotched with yellow and red in various ways, which renders them most attractive and valuable for decorative purposes. They are of the easiest culture, succeeding in any warm greenhouse.

Our rich collection of Crotons has been awarded the leading prizes by the Maryland Horticultural Society for some years, and first premium at the Cincinnati Exposition in September last.

Per plant.

Croton Aurea-Maculatus. A small-leaved variety of very neat and compact habit. The leaves are ovate-oblong, not more than 3 inches long and 1½ inches broad, deep but bright green, profusely spotted with golden yellow. It is quite distinct, and wil prove one of the most useful as well as most pleasing additions to this numerous family of decorative plants.....75 cts. to$2 00

Croton Earl of Derby. A splendid novelty, with leaves of the *C. Disraeli* form, very highly colored, and quite distinct. The stem during its earlier growth is of a remarkably bright yellow, the petioles and mid-ribs of the three-lobed leaves springing from it are of the same rich color, which also spreads over the greater part of the lamina or blade, the extremity of each lobe being green.....$1 to 2 00

Croton Nobilis. A beautiful variety with long pendulous leaves, richly colored with many tints. The colors are crimson, yellow, and green in many shades, the crimson being predominant in the stems, footstalks of the leaves, and mid-ribs where it is bordered by bands of deep golden yellow. In the latest growth the prevailing color is sulphur yellow. A noble Croton with gracefully weeping habit.....75 cts. to 1 50

Croton Mooreanus. The color and markings of the foliage are rich and distinct. The mid-rib and margin of the leaf are of a clear orange yellow, with the blade crossed with parallel bands and stripes of the same color upon a deep green ground; these bands and markings show considerable regularity, and form a distinguishing feature in this variety.....75 cts. to 2 00

Croton Andreana. A variety of neat habit and free growth. The foliage colors in the most exquisite manner. One of the most beautiful of Crotons.....$1 to 2 00

Croton Disraeli. In the newer leaves the mid-rib and margin of a light yellow. As the foliage becomes older, the yellow subsides to a bright orange yellow, the marginal line becoming more defined. In the mature leaves the margin is a bright scarlet, and the mid-rib is striped by a band of the same bright color between two lines of a deep golden yellow, and the blotchings and markings a rich orange yellow, upon a deep green ground.....50 cts. to 1 00

Croton Bismarcki. The leaf almost panduriform. The color is a deep green, with a broad band of golden yellow along the costa, and yellow markings indicating the course of the lateral veins, in addition to which a few slight yellow blotches are scattered over the surface.....50 cts. to 1 00

Per plant.

Johannis. The leaves are from twenty to twenty-four inches long, narrow and pendulous, ground color bright shining green, the margins and mid-rib bright orange yellow, a beautiful variety.....50 cts. to 1 00

Irregulare. Leaves broadest at the base, and tapering to an obtuse point, about 9 inches long, and most diversified in shape, scarcely two leaves resembling each other; ground color dark green, mid-rib orange yellow, with the upper surface of the leaf irregularly spotted and blotched with yellow.....50 cts. to 1 00

Lord Cairns. This has trilobate leaves. The color of the foliage is a bright green, the mid-ribs of the leaves a light yellow, blotched and spotted with the same color, the spots and blotches being irregularly scattered over the surface.....50 cts. to 1 00

Majesticum. A truly grand variety, leaves from twelve to eighteen inches long, somewhat narrow; when young the leaves are deep green, ribbed with golden yellow, the green changing with age into a deep olive and the yellow becomes crimson.....50 cts. to 1 00

Multicolor. Leaves irregular in shape, contracted in the centre and twisted at the point, light green blotched with yellow, but changing to glossy green blotched with yellow, reddish yellow and red, the mid rib crimson.....40 cts. to 0 75

Spirale. The spiral leaves render it most distinct, they are from nine to twelve inches in length, and about an inch wide and pendulous; in a young state the ground color is deep green, striped up the centre with a broad band of golden yellow; with age they change to a deep bronzy green, and the mid-rib becomes a deep crimson.....40 cts. to 0 75

Tortilis. A remarkably fine variety with twisted foliage, very distinct. The mid-rib of each leaf grows in a spiral from the base to the point. The ground color is of a deep olive green, the mid-ribs of the mature leaves bright crimson, bordered on each side with a line of deep yellow.....40 cts. to 1 00

Volutum. A very distinct form, the leaves being rolled up from the end in a volute, after the manner of the curving of a ram's horn. The ground color is deep green, a golden bar runs down the centre, from which yellow veins diverge at about half inch intervals, and meet near to, and so as to coalesce with the golden margin, in which occur scattered spots.....50 cts. to 1 00

Veitchii. A splendid variety. The leaves attain a length of twelve to fourteen inches, and two-and-a-half inches in breadth, and are traversed by broad bands of creamy yellow, which change with age into rose and carmine purple.....40 cts. to 0 75

Undulatum. This is one of the most beautiful, the edges of the leaves being beautifully undulated and wavy, and the variegation consisting of numerous markings and blotches, which in the matured leaves are of the brightest crimson on a dark green ground, and in the young leaves, at first yellow, gradually changing to pink and crimson.....40 cts. to 0 75

Weismanni. This is one of the most beautiful of all the forms; leaves about a foot long and three-fourths of an inch wide; ground color shining bright green, striped and mottled with golden yellow.....50 cts. to 1 00

Chrysophyllum. At the upper ends of the shoots they appear to be almost entirely golden. The upper leaves are shorter than the lower, somewhat wavy-edged, and occasionally about once twisted; the petioles are red, and the bark of the young wood yellow.....50 cts. to 1 00

Bicornutum. This is a curious and handsome variety; leaves irregular in shape, dark green, blotched and spotted with yellow, and having a horn-like extension of the mid-rib, which has given rise to its name.....50 cts. to 1 00

Youngii. This magnificent Croton is of noble and graceful habit; the leaves are of great substance, from 1½ to 2 feet in length, deep red underneath, while the upper surface is dark green, densely blotched and suffused with creamy yellow, and bright rosy red.....40 cts. to 0 75

Interruptum. Very long leaves, nearly an inch broad, mid-rib bright scarlet, shading to a golden yellow; an exceedingly graceful plant.....25 cts. to 0 50

Longifolium. Leaves green, blotched and striped with golden yellow, very long and graceful; a magnificent plant.....25 cts. to 0 50

Picta. Foliage dark green, spotted with red and yellow.....25 cts. to 0 50

Variegatum. Leaves dark green, blotched and spotted with golden yellow....25 cts. to 0 50

Variegatum Rubrum. Leaves dark green, striped and spotted with red and golden yellow.....25 cts. to 0 50

Specimen and half specimen plants of all can be supplied during summer and autumn, suitable for exhibiting, at moderate prices.

HIBISCUS ROSA SINENSIS.—Chinese Hibiscus.

ALL ARE MAGNIFICENT PLANTS FOR BEDDING OUT.

Per plant.

Collerii, (new.) A remarkably distinct variety. The general habit of the plant correspond with those of the type, but the flowers are of a buff-yellow, with a crimson scarlet base, and are particularly handsome 0 75
Cruentus. The flowers are compact and double, of a remarkably rich crimson red, and having a strikingly showy character ..... 25 cts. to 0 40

SWEET SCENTED VIOLETS.

Odoratissima, (Lees.) This is a beautiful new single Violet, very large, color purplish azure. 25 cents.
Belle de Chatenay. New double white Violet. The flowers are pure white, most delicately perfumed, of immense size, and very double. 25 cents.
Czar. (Single.) Very large purple, hardy and fragrant.
Czar White, (Single.) A pure white variety of the last, very desirable.
Double Blue Neapolitan. Light blue.
Schoenbrun. Ever blooming, single dark blue.
King of Violets. Large and double, indigo shaded with violet.
Marie Louise. Very fine double flowers, purple, with white centre, forces well.
Princess Louise. Double white, fine.
Devoniensis. Single blue, large, very fragrant.
Victoria Regina, (Lees.) This is a most beautiful single Violet, with blooms 1½ inches in diameter, pale blue, very fragrant.
Marie de Savoy. See *Novelties.*
Rubra Plena. See *Novelties.*

Price 15 cents each, $1.50 per dozen, (save where priced.) Large plants in autumn 25 cents each, $2.00 per dozen.

LAGERSTRAMEA.—Crape Myrtle.

Per plant.

Indica Alba. White Crape Myrtle, a very beautiful shrub $0 25
Indica Rosea. Rose or pink, the variety generally grown 0 25
Indica Purpurea. A bright purple, a vigorous grower, and free bloomer 0 25
Indica Magenta. Color a bright magenta 0 25
Indica New Crimson. Bright deep crimson, no variety hitherto introduced approaching it in color; a profuse bloomer, giving immease heads of its rich flowers 0 25

The Crape Myrtle is well-known in this latitude and South as our most beautiful summer flowering hardy shrub. North, it will need protection.

PUNICA.—Pomegranate.

Per plant.

Nana. It blooms freely in a small state, and larger specimens are sheets of bloom. It is highly recommended for bedding purposes. being a profuse bloomer, and exceedingly desirable from its rich color, brilliant orange scarlet $0 25
Alba Pleno. Double white 0 25
Rubra Pleno. Double red 0 25
Rubra Prolifera. A profuse flowerer 0 25
Legrelliæ Pleno. Reddish yellow bordered with white, very double, splendid 0 30

PASSIFLORA.—Passion Flower.

Alba. White Passion flower, greenhouse climber 0 50
Arc-en-ciel. "Very large flowers; raised part pure white, centre citron-colored, outer circle dark, inner circle white shading to blue." 0 50
Cardinalis. Scarlet flowers, greenhouse climber 0 50
Princeps. Flowers rich crimson, a very fine greenhouse climber 0 50
Quadrangularis Variegata. Very fine golden variegated foliage 0 50
Trifasciata. Leaves dark green, tri-lobed, each lobe having a broad central band of rose, a very distinct Passion flower, flowers white 0 25
Cœrulea. Cœrulean blue, a beautiful old variety, nearly hardy, requires only slight protection in severe weather 0 25
Incarnata. This variety is perfectly hardy in this latitude. In very severe winters it is killed to the ground, but on the return of spring, it puts out with great vigor, growing luxuriously, and flowering profusely during the summer months; similar in color to *Cœrulea* 0 25

TACSONIA—A Section of Passiflora.

Exoniensis. Color a glowing scarlet; a rich and very beautiful Passion flower 0 50
Van Volxemi. A splendid conservatory climber, with large scarlet crimson blossoms; it may be regarded as a scarlet greenhouse Passion flower, an exceedingly beautiful climbing plant 0 30
Buchananii. (Vitifolia.) Another magnificent conservatory climber, with brilliant orange scarlet flowers, most profuse bloomer, and one of the finest Passion flowers, 0 30

NEW and RARE HARDY TREES and SHRUBS.

CEDRELA SINENSIS.

A very beautiful hardy tree of rapid growth, from north of China, with large foliage similar to Ailanthus, and yellowish bark. This is a very handsome new tree, very desirable for gardens, lawns, cemeteries, &c., its fine large shining foliage being most distinct, and the tree, withal, perfectly hardy 0 75

CALLICARPA PURPUREA.—(*Gracilis.*)

A pretty berry-bearing shrub. It blooms in August; these are succeeded by a crop of small berries, which are of a bright lilac-purple, and which continues up to winter. The plant is quite hardy. The shoots are generally killed to the ground, but they throw up rapidly in spring 0 40

HYPERICUM PATULUM.

Per plant.

"This magnificent hardy evergreen flowering shrub is a grand acquisition to our scanty list of hardy flowering species. Its individual flowers, which are produced in bunches, are pale yellow, and of great substance, resembling much in appearance the beautiful Gardenia Javinica. It continues long in perfection, commencing to flower in June, and has been in fine perfection till the first week in November."—*M. Carriere*..... 0 25

IDESIA POLYCARPA.

A very beautiful new Japanese tree, with a handsome spreading head and fine foliage 6 inches broad and of a bright green. The flowers, which are of a yellowish green spring from the axils of the upper leaves in long gracefully drooping branched racemes. They are deliciously fragrant, their odor resembling that of a Vanda. These are followed by numerous orange berries, about as large as a small cherry. Tree quite hardy.....50 to 0 75

PYRUS MAULEI.

This desirable new fruit has been introduced into England from Japan; it is allied to the Japan Quince. The fruit is the size of a moderate Quince, of a bright apricot color, and makes a rich conserve. The flowers, which are produced in great profusion, are of a most brilliant orange scarlet color. It is one of the most beautiful flowering trees of recent introduction, as well as a valuable fruit.....Small plants, 0 50

*PHELLODENDRON AMURENSIS.

A pretty medium-sized tree from the Amour, with a straight stem and dense head and long pinnated foliage; produces the Siberian Cork. "This is just now (November) a beautiful object in my garden. My specimen tree is about 12 feet in height, and has a tall pyramidal crown of from 3 to 6 feet. The form of its foliage, which is deeply lobed, gives it a singular appearance, and the coloration of the leaves, which are bright red, is very fine. It retains its foliage very late."—*Max Leichtlin*..... 0 75

RHODOTYPES KERRIOIDES.

This handsome shrub is from Japan. It is one of the earliest to bloom, coming out the first fine days in February. The flowers with which the plant is clothed are pure white and very showy, a great acquisition among shrubs, quite hardy.....30 to 0 50

COCULUS CAROLINIANUS.

A rapid growing climber, perfectly hardy. It produces racemes of vivid scarlet berries which hang on the vines all winter. 50 cts. each.

*NEVIUSIA ALABAMENSIS.

A new native shrub of great beauty. "It occurred in thickets under a long escarpment of rock, and when in full bloom looked liked a snow wreath. In its native place it had a southern exposure at the base of a high cliff, and at an elevation above the tops of the trees below; at that place I have seen virgate wreaths of it three feet long covered with bloom." $1.00.

ANDROMEDA ARBOREA.—*Sorrel Tree.*

A rare American small tree, called in Europe, Lily-of-the-Valley Tree, from the resemblance of its bloom to that lovely flower. 50 cts.

*CARPENTERIA CALIFORNICA.

This is an extremely rare shrub even in its native habitat. It is a handsome shrub, the flowers being large pure white, with yellow tipped stamens. The leaves are broadly lance shaped of thick texture with recurved margins; it grows from six feet to fifteen feet in height, and is very bushy. One of the most valuable shrubs which have been introduced for years. "A great acquisition."—*Garden.* Ready in May. $1.00 each.

STAUNTONIA HEXAPHYLLA.

Per plant.

A beautiful new climbing plant from Japan, perfectly hardy, of very rapid growth and fine large foliage 1 00

STYRAX JAPONICA.

This is one of the finest hardy shrubs of recent introduction. It is of vigorous compact growth; blooms early and most profusely; the plants are sheets of bloom, which are pure white and most charming, admirably adapted for cemeteries, &c., 30 cts. to 0 50

LIGUSTRUM JAPONICUM TRICOLOR.

A very fine variegated shrub, centre of leaf green, broadly margined with silver 0 50

CRATÆGUS LALÆNDI.

A variety of Pyracantha, much superior, has deeper colored berries and a more compact and better habit 0 40

DIMORPHANTHUS MANDCHURICUS.

This noble deciduous shrub has been introduced from Mandchuria, and, therefore, is perfectly hardy. Its handsome multifid leaves are about a yard in length, and as much in breadth, the mere mention of which conveys some idea of the grand effect this plant produces 0 50

ARALIA SIEBOLDI.

A very handsome evergreen with large shining green leaves, nearly or quite hardy. A fine decorative plant .....

DESMODIUMS.

Japonicum. A pretty dwarf Japanese shrub, which is quite hardy. "Its drooping branches are entirely hidden by millions of its white flowers, which are freely produced from August to beginning of winter." 0 25

Penduliflorum. Similar to the last, with purple flowers. 0 25

ABELIA RUPESTRIS.

A dwarf compact shrub, flowers pure white in long racemes during summer and fall; a beautiful shrub, quite hardy 0 25

NEW WIEGELIAS.

Incarnata, (new.) A beautiful bright colored variety 0 30

John Standish, (new.) Large flowers of purplish crimson 0 30

Ed. André. A very beautiful new variety, interior of flower purple, exterior very dark blackish purple 0 50

Dr. Baillon. Flowers red, veined 0 50

*OLEARIA HASTII.

A pretty hardy shrub from New Zealand. It is most attractive when in bloom, being literally covered with masses of white blossoms which are fragrant, and continues a considerable time in bloom 1 00

*SYRINGA.—(*Lilac.*)

Hyacinthiflora pleno. A magnificent double flowered lilac—large thyrse of rich double lilac flowers. (Ready in April.) 1 00

JAPANESE PERSIMMON.—Dyospyros Kaki.

Of this beautiful new fruit I offer several finest varieties 0 75

CLEMATIS.

Among the most beautiful of climbing plants are the Clematis—whether trained over lattice work, on pillars, or trailing on the ground. There can now be found among them great variety of colors, all are profuse bloomers, and quite hardy.

Class I.

PERPETUALS, Summer and Autumn bloomers flowering on shoots of the same year's growth, raised between Lanuginosa and Viticella, except the two first named.

Aureliana. Flowers large and of a lively porcelain blue	0 50
Atropurpurea. Large and intense crimson blue	0 30
Candidissima. Very large, pure white, fine	0 50
Fulgens. Violet purple, with a reddish band through the centre of each petal	0 40
Gem. A most profuse bloomer, continuing in full beauty late into the autumn, flowers large, a most intense rich blue	0 50
Henryi. A magnificent large white flower; a free grower and a most profuse bloomer,	0 50
Jackmanii. A lovely hardy climber, with large flowers of a deep purple light violet; a profuse bloomer	0 50
Jean d'Arc Flowers white, large and perfect, with three pale blue stripes on each petal. The plant is of vigorous habit	0 50
Lady Caroline Neville. Color delicate blush white, with a broad purplish band in the centre of each petal	0 50
Lanuginosa. A beautiful species, with light azure flowers, which form an admirable contrast to the others	0 40
Lanuginosa Nivea. A variety of the last, with large white flowers, a very fine and distinct sort	0 50
Lawsoniana. A large and very fine flower, of a fine rosy purple, a free and continuous bloomer	0 50
Mrs. Jas. Bateman. A very large lavender blue	0 40
Mad. Grange. Flowers large purple violet with maroon mid-rib, redder than any other Clematis	0 50
Mad. Van Houtte. A splendid variety; white, suffused with a bluish mauve colored tint	0 50
Marie Lefebvre. Flowers from six to seven inches in diameter, delicate violet white, with purplish lilac band in the centre of each petal.	0 50
Magnifica. Purple, shaded with crimson, very large and fine	0 50
*Otto Frobel. This variety is remarkable for vigor and the flower is of immense size and perfect in form, the sepals being sufficiently broad to be well imbricated. The color French white. Any person planting this cannot possibly be disappointed.	0 75
Princess of Wales. Large flowers of a deep rich violet purple, with red bars down the centre of each petal; a beautiful variety	0 50
Rubella. Flowers of a rich velvety claret, the deepest color of any Clematis, generally has six petals to each flower	0 50
Symeiana. Delicate shade of pale mauve or lavender blue; a striking variety	0 50
Star of India. Flowers from four to five inches in diameter; color rich violet purple, with a rosy purple band in the centre of each petal	0 50
Thomas Tennant. White, with pale rose changing to ivory white, very handsome	0 50
Thomas Moore. Deep rich violet tinted puce, a very large flower, occasionally nine inches in diameter	0 50
Tunbridgensis. Flowers four to six inches in diameter, dark blue, and ribbed on the centre of each petal with purple	0 50
Velutina Purpurea. Very profuse bloomer, color blackish mulberry.	0 50
Viticella Venosa. A reddish purple, reticulated with white	0 50
*Viticella Alba, (new.) Free grower and profuse bloomer, color pure white	2 00
*Viticella Rubra Grandiflora, (new.) A vigorous free growing variety, flowers profusely, color a violet red	1 00

Twelve very fine, my selection, $4.50.

NEW CLEMATIS.

Per plant.

*André Leroy. An immense flower of the finest form, color rich violet, with a metallic hue; a grand flower 1 00

Ascotiensis. The flowers containing six petals each; color a fine azure blue; it is a most profuse bloomer 0 50

*Fairy Queen. Flowers very large, occasionally measuring nine inches across; color pale flesh, with a pink bar in the centre of each sepal, shaded purple at the base 1 00

*Duke of Edinburgh. This is a fine variety, flowers large, six-sepaled, of a rich violet purple. One of the most attractive 0 75

*Devoniensis. Flowers large, delicate azure blue, very free bloomer, extra 1 50

*Duchess of Teck. Flowers pure white, six-sepaled, with a faint, delicate mauve bar down the centre when first opened 1 00

*Duchess of Edinburgh. Without doubt the best of the double whites yet known, most deliciously scented, very free blooming 1 50

*Gipsey Queen. An extremely rich, bright, dark velvety purple variety of the Jackmanii type; very free, late flowering 1 00

*Moritkata Oke. A beautiful new variety, satiny French white, closely set and slightly cupped, flowers very perfect in shape 1 50

*Mrs. Hope. Satiny mauve, bar rather darker tint, sepals broad and over-lapping, forming a full slightly reflexed flower 1 50

*Mrs. Baker. White, with dark carmine ribbon, a large and beautiful flower, free bloomer 0 75

*Purpurea Elegans. Flowers large, fine form; color deep violet purple, well contrasted by its light colored filaments and pinkish brown anthers 1 00

*Reine Blanche. A lovely white flower, delicately margined, with sepals, fringed 1 00

*Vesta. The flowers are five inches across, and consisting of eight or more spreading sepals of a dead white color, with a creamy tinge over the centre bar 1 00

*Victoria. A distinct and handsome variety, flowers large, composed of five and six petals well formed, color deep reddish mauve 0 50

Class II.

The following varieties flower in spring and early summer, from the old or ripened wood of the previous year's growth, have been raised from Patens:

Albert Victor. A thick velvety texture, flowers large deep lavender, with brown ribs down the centre petal $0 40

Excelsior. Flowers large, finely shaped and occasionally double, the outer petals resembling the guard petals of a Hollyhock, color rich deep mauve 0 50

Fair Rosamond. The flower is fully six inches across, and consists of eight sepals. *White* with a bluish cast, having a light wine red bar up the centre of each sepal. Flowers very fragrant, and are abundant through June and July 0 75

Fortunei. A very fine species from Japan, flowers double, white and fragrant 0 40

Florida Standishii. One of the most beautiful flowers, of a kind of violet blue, with crimson and carmine shining through it 0 40

John Gould Veitch. A magnificent "Double Blue Clematis." It is a profuse bloomer, the flowers being very double, of a large size, (four inches in diameter,) and of a beautiful light blue 0 50

Lady Londsborough. A robust constitution, producing its elegant flowers in great abundance; color a delicate silvery lavender with a white stripe down the centre of each petal 0 50

Lucie Lemoine. Fine double white, the flowers are composed of seventy-five to ninety petals. In the first period of its flowering the blooms are semi-circular in shape, resembling a gigantic double white Zinnia 0 50

Miss Bateman. A magnificent plant of both growth and flower; the blooms are large, of good shape and pure white, banded with creamy white down the centre of each petal 0 40

Montana. Flowers pure white—early in spring 0 50

Stella. Very showy. The flowers are of a light violet or deep mauve, with a distinct bar in the centre of each sepal of a reddish plum color 0 50

NEW CLEMATIS.

Per plant.

*Countess of Lovelace. This fine variety is remarkably vigorous, having large sepals of a bluish lilac, forming a guard to the flowers, within which is a rosette of smaller sepal like bodies, which are of a deep bluish lilac to the base, forming a full double flower 1 00

*Sir Garnet Wolseley. The flowers are very distinct and attractive, nearly six inches across, of a slaty-blue ground color, having in the young state a very effective dash of bronze, and in the matured condition a showy and distinct bar of plum red 1 00

*The Queen. A free habit and remarkably handsome foliage, and flowers of a delicate lavender color; very beautiful 0 75

*Mrs. George Jackman. The flowers are large, six to seven inches across, flat, light sepaled, much overlapping from the base upwards, so as to form a close and well filled flower, and sometimes producing a second row of petals; the color is satiny white with a creamy bar 2 00

GESNERIAS.

These are bulbous-rooted plants which bloom magnificently during the winter months.

*Donkelaari. A remarkably fine plant for winter blooming, color rich vermilion 1 00

*Leopoldi. Dwarf, compact, erect habit, umbels of a rich vermilion; an exceedingly beautiful plant 0 50

*Lilacina. A variety similar in all respects to the last, except color of flowers, which in this is of clear lilac 0 50

Regalis. Large, splendid and elegantly-arranged foliage, flower trusses sparkling vermilion 0 75

Exoniensis. An intense orange scarlet, the leaf is of a dark velvety texture, studded with minute red hairs like plush 0 50

Refulgens. Another superb winter flowering plant; color of flower between vermilion and amaranth, a charming plant 0 50

Splendidissima. Crimson, with yellow tube, spotted, very beautiful, velvet-like foliage, very fine 0 30

Jasminiflora. Flowers of the purest white, freely produced, beautiful 0 30

*Purpurea Maculata, (new.) Purple, spotted with dark red 0 75

*Pyramidalis Ruberrima, (new.) Deep crimson, beautifully spotted, very fine 1 00

MISCELLANEOUS GESNERIACIOUS PLANTS.

Cyrtodeira Chontalensis. Leaves light green, purple underneath, flowers lilac with a yellow centre; a charming plant 0 30

Drymonia Turialvæ. A beautiful bold leaf, very thick, with a silvery metallic appearance, and as easily cultivated as a Begonia. Also a good flowering plant 0 30

Rosanowia Citrina Rosea. Pretty flowers, half yellow and half rose 0 50

Rosanowia Ornata Creamy white, covered with rose lines on the tube lobes, interior striped with dark purple; a fine variety 0 50

Scheeria Mexicana Cœrulescens. Fine blue 0 50

ACHIMENES.

Firefly. Lively carmine, salmon orange centre.
Lady Littleton. Rich magenta washed with velvety crimson, centre light orange.
Loveliness. Magenta washed with crimson, centre golden yellow.
Ami Van Houtte. Very fine violet blue, centre yellow pointed with purple.
Celestial. Long flower, white slightly washed with violet blue.

GLOXINIAS.

The varieties of this genus are all very handsome, producing abundance of magnificent flowers of the most beautiful description. The tubers should be potted in February or March. Place in a little heat to start them into growth; water sparingly till the plants are well established. When in bloom bring them into the conservatory or drawing room. After the plants have done blooming dry gradually off, by withholding water from their roots; afterwards remove them to a warm, dry place.

The following are superlatively beautiful:

Those marked thus (*e*) have erect flowers.

(*e*) Cinderella. Pure white with pink band. most beautiful.
(*e*) Brilliant. Bright crimson margined with rose, rich violet throat.
Ernst Banary. Dark lavender, mottled with white, a beautiful flower.
Henry Husson. White, with a lavender lip, a large showy flower, beautiful.
Leon Vanderwee. Flowers having six divisions, each covered with dark, almost black spots, edges white.
(*e*) Madame de Smet. White with violet lobes, a beautiful marked variety.
Rose d'Amour. Rose carmine, cream colored throat, zone of cerise.
Mogul. Tube dotted with red, purple crimson limb, very clear at the border.
(*e*) Princess Royal. Tube and edges white, throat mottled with dark blue, fine.
Scarlet Gem. Crimson scarlet, extra fine.
Theresa Saul. Scarlet carmine margined with white, very fine.
Quadricolor. Rose flaked with white, super cochineal spots; throat lilac.
Wilhelmine. White, the tube is ornamented with an azure blue band encircling innumerable blue dottings.
Suavis. Color white, with millions of tender rose color dots.
Tricolor Cochenille. Fine cochineal, with lavender rays and tricolor throat.
Byron. White ground, the margin of the limb is amaranth festooned with purple.
Camoëns. Very fine flower marbled with snow white and blue, bordered with crimson.
Chateaubriand. A rose cochineal, white undulated limb, throat marked with rose.
(*e*) Gœthe. Erect flower, vermilion rose with almost black throat and white bottom.
Lamartine. White bordered rose limb, veering to cochineal, marbled with white.
Le Lion de Flandre. Dark blue, ornamented with an immense cream white spot, which covers all the breadth of the tube.
(*e*) Nekita. Very dark purple, nearly black, extra fine.
Schiller. Erect flower, fiery cherry sprinkled with violet, very large flower.
Washington. Very dark vermilion cochineal.
Lady Cremorne. A new type of flower, adorned with an elegant, lively rosy and white tucker, inside of throat dark rose.
Topaz. Tube white, lobes zoned with white and tinted with blue.
Pourpre de Tyr. Deep crimson throat, the remaining portion of which is of a pure cream color speckled.

25 cts. each; $2.50 per dozen.

NEW GLOXINIAS.—Veitch & Sons.

(*e*) Boule de Neige. Pure snowy white, fine form, an abundant bloomer.
(*e*) Derniere Mode. White with centre of lobes spotted maroon, throat dotted with lilac blue, extra.
Duchess of Teck. This fine variety has extra large drooping flowers of a rich magenta, shaded with maroon; the ground color is lighter at the edges of the lobes. It is very distinct.

Excelsior. Flowers horizontal with lower side lobes of corolla enlarged; deep glowing crimson, a very robust free flowering variety.
(*e*) Liseré D'Argent. Intensely bright crimson scarlet, distinctly margined with pure white; light throat beautifully spotted and freckled with carmine, and shaded with rosy carmine.
Madame Hatti. Fine scarlet flower, throat deep red shaded with purple, slightly blotched with white, margin rosy scarlet.
Miss Hannah de Rothschild. Large white tinted with purple; throat purple shaded mauve lower part creamy white.
(*e*) Mrs. Haines. Splendid erect flower, throat purplish violet, bordered with vermilion scarlet, with deep margin of rose color.
Prince Arthur. A large deep purple flower, the two upper lobes and margin light purple.
Prince Leopold. Throat purplish violet, scarlet margin shaded with pink, very fine.
The Hon. Mrs. York. Creamy white throat, bordered with mauve, with a margin of rich pink.
(*e*) Vesuvius. Flowers erect and crimson; scarlet crimson of an intense fiery lustre, the most brilliant color yet obtained; the throat is lighter and softer than the lobes of the corolla, and spotted with deep crimson.

40 cts. each; $4.00 per dozen.

*NEW GLOXINIAS.

*Anna de Gondeixa. Compass of the limb violet blue, middle of the lobes and throat creamy white.
*Agnes M Saul, (Saul.) Light crimson scarlet, fine large flower, very fine.
*Notaire Moens. Large superb flower, white, covered with light carmine dots, borders of limb pure white.
*B. S. Williams. Flowers very squat, very intense fiery vermilion.
*Artevelde. Flowers enormous, velvety violet, edge of the throat blackish purple; a first-class variety.
*(*e*) Cardinal de Richelieu. Creamy yellow throat, spotted with purple and ornated with a rich violet and large velvety crimson violet festooned ribbon, spreading towards the circumference.
*(*e*) Ami Thibaut. Creamy white, covered with spots all over, feigning frosty arabesques.
*Francis Saul, (Saul.) Blue with a deep purple throat, a large finely formed flower.
*(*e*) Triomphe de Bruges. White, ornated with a light blue ribbon, each division of the limb separated by a small blue bar, the whole ornated with a bluish sprinkling.
*William Bull. Double corolla, perfect form, white ground, limb variegated with crimson, reflecting a bluish hue spreading a flame to the ground of corolla, ornated with a flesh colored dotting variegated on its reverse with stripes and flame like those of carnations, the upper part being velvety pansy. $1 each.
*(*e*) Lalla-Roukh. Fine violet amaranth, throat white covered with an amaranth network, a new coloring.
*(*e*) Conquest. Flowers well formed, and of good substance. Lobes of corolla, bright peach margined with white; throat light pink and spotted, very distinct.
*Eclipse. Flowers horizontal, brilliant glowing crimson, throat lighter, colored to near the base and spotted with deep crimson.
*(*e*) Ne Plus Ultra. Flowers extra large, lobes of corolla deep violet purple, edges lighter, throat well colored, a superb variety.
*(*e*) Rosy Morn. Flowers of fine form, rosy scarlet, very attractive.
*(*e*) Albo-Marginata Myriostigma. White spotted with carmine, and bordered with pure white.
*Bradamante. Very large flower, pure white tube, light rose lobes bordered with rich rose, and blotched with white.
*(*e*) Boule de Feu. A fine large flower of the most intense and brilliant red color.
*Cecile d'Elchingen, bright crimson bordered with rose, a very large and fine flower.
*(*e*) Comtesse de Flandre. A very fine large flower with open throat, lobes white spotted with magenta rose, and maculated with carmine.
*(*e*) Duc Decazes. A splendid flower, white ground, beautifully maculated with lilac magenta.
*(*e*) Matador. Very dark reddish crimson, neatly bordered with white; very rich and showy.

*(e) Marquise de Chennevieres. Bluish violet, beautifully striped and reticulated with dark violet, the lobes broadly margined with pure white, cream colored throat, lightly spotted.
*Original. White, border of lobes amaranth spotted with white, a beautiful flower.
*(e) Prince P. Troubetzkoy. A very large flower of an extremely dark violet color, bordered with pure white, a remarkably attractive variety.

50 cents each, (saved where priced,) $5 per dozen. (Ready in May.)

CALADIUMS.

Symmetry. Tube and sepals crimson, corolla large, rich violet plum.
Sunray. Leaves, which are large, are of a rich bright crimson, white and bronzy green in about equal parts. Scarlet tube and sepals, with light pure purple corolla. 25 cts.
T. T. Lawden. Large flower of the dark blue corolla class.
Tower of London, (*d.*) Carmine scarlet sepal, violet blue corolla.
Vainquer de Puebla, (*d.*) Sepals bright red, corolla white.
Warrior. Sepals crimson, corolla large rosy purple.
Warior Queen. Sepals scarlet, with a large bluish violet corolla.
White Eagle. White corolla, scarlet tube and sepals recurved.
White Perfection. Sepals white, elegantly recurved, corolla purple.

NEW FUCHSIAS.

Price 50 cents each, (save where priced.)

Adine. A very pretty variety, white tube and sepals, the latter completely reflexed, and rich deep rosy magenta corolla.
Bland's New Striped. Tube and sepals dark scarlet, former short, corolla rich plum colored purple, regular and distinctly striped red and rose, very free blomer.
Carminata. Tube and sepals bright carmine, the latter well reflexed, deep violet.
Camille Flammarion. A free blooming variety of good habit, reflexed sepals of a rosy red, corolla of a reddish violet.
Compacta Floribunda. Tube crimson, and sepals crimson, reflexed, corolla rich violet.
Crimson Globe. Tube and sepals bright coral red, very broad; pale violet purple corolla, very stout, and of the finest form.
De Montalivet, (*d*) Clear violet variegated with rose, corolla deep rose, sepals rosy carmine inside and yellowish rose on the exterior.
*Ed. Andre. A cross between *F. Dominiana* and *F. Serratifolia*, resembling the latter in the form of its flowers, which are very large, with open corolla of a pale orange color and long carmine tubes and sepals; a winter bloomer.
Flambeau. Short tube, reflexed sepals, crimson; very large and full corolla of a dark violet, striped and spotted with scarlet.
Galatea. Rosy carmine tube and sepals, reflexed, corolla of a rich bluish purple, a remarkable flower.
Geant des Batailles, (*d.*) Tube and sepals crimson, corolla violet, fine habit, extra.
J. Becker. Tube and sepals carmine, corolla pure white, semi-double, finest habit.
Jean Sisley. A vigorous plant, very long tube, carmine tube and sepals, corolla orange, a winter bloomer.
Memphis. Tube and sepals of a bright and rich crimson, the sepals gracefully reflexed; corolla of a rich purple.
M. Dufaure. Beautifully formed flowers, with rosy salmon corolla, and elegantly recurved sepals of a yellowish salmon color with green tips.
Mad. G. Marie, (*d.*) Tube and sepals white, corolla rosy crimson, fine free habit.
"Modele," (*d.*) A first-class improvement on all existing double white Fuchsias. Growth vigorous and erect; corolla perfect double white, with bright carmine red sepals. The earliest and freest bloomer. 75 cts.
Pink Perfection. A stout flower of fine form, with creamy white tube and sepals and rich pink and violet corolla, dashed with violet.
Royal Osborne. Tube and sepals white, corolla rose amaranth, finely formed, compact free habit; extra fine.
Rainbow. See NOVELTIES.
Ray of Light. A pure white corolla, low bushy habit, early and free bloomer, a splendid market plant.
Syringæflora. Large truss of flowers resembling in shape a bunch of lilac, color rosy lilac, winter bloomer.
Spitfire. Bright red tube and sepals, and pale purple corolla; flowers large and bold. A fine exhibition variety, being a good grower and very free.

Splendens. The finest winter flowering Fuschia and is invaluable for that purpose. It requires a warm intermediate house, and if the plants are prepared about mid-summer, and grown on to healthy plants, they will continue to produce an abundance of orange scarlet flowers throughout the entire winter.

Star of Wilts. Tube and sepals cream color, corolla pale pinkish violet, with distinct margin of orange; a very fine flower.

Triomphant. Tube and sepals carmine, very large lilac corolla, fine habit and free bloomer, fine.

DAHLIAS.—General Collection.

SHOW FLOWERS.

Our collection of Show Flowers received first premiums at the Maryland Horticultural Society's Exhibition for several years past.

Our collection of this beautiful flower is unrivalled. FERNS.

Adiantum Gracellinum. A most elegant and distinct Fern, with very light and graceful fronds; the multiplicity of minute pinnules impart to the plant a peculiarly charming appearance; the fronds are about a foot long and nine inches across, are thin and fragile; color an olive green. 50 cts.

*Adiantum Hendersonii. A very distinct and elegant Maiden Hair Fern. The fronds attain a length of from 30 to 40 inches, and have a graceful arching habit. The mature fronds are a beautiful dark green. the young fronds a bronzy crimson $1.00.

*Adiantum Veitchii "An extremely ornamental Fern, attracting the eye by the symmetry of its growth. The young fronds are very beautiful, being of a fine red color, that of the mature fronds a pale green." $1 00 each.

Adiantum Amabile. A very elegant species, with fronds of a beautiful light green color, small and elegant in regard to the size and form. It has been introduced from Peru, and is a free growing cool stove Fern, attaining the height of from 15 to 18 inches. 30 to 50 cts.

Adiantum Farleyense. The most magnificent variety of this handsome family; the fronds are of the size and form of *A. trapeziforme*, but pendant, and all the large pinnules are deeply fringed and crisped. 50 cts. to $1.00.

Adiantum Peruvianum, (new.) A magnificent species, rivalling the well-known *A. trapeziforme*, in the size of its pinnules, and surpassing it in the elegance of its large compound drooping fronds. It is a strikingly ornamental Fern. 25 to 50 cts.

Adiantum Princeps. A very handsome and distinct *Adiantum* from New Granada, with long arching fronds; pinnules large and closely set upon the rachis; of a pleasing green. This plant will make a fine specimen for exhibition purposes. A splendid Fern. 75 cts.

Adiantum Sanctæ Catharinæ. The fronds of this fine ornamental plant are from one to two feet in height, and decompound. It is a very grand plant, and succeeds well in a warm greenhouse. 75 cts.

*Adiantum Seemanni, (new.) A noble species, producing fronds 2 feet long, with a comparatively slender glossy black stipe, bare at the lower part, and bearing, towards the top, from 4 to 8 magnificent large pinnæ. 75 cts.

Asplenium Longissimum, (new.) A very useful basket Fern; its pendulous fronds are often from 5 to 7 feet long, and are produced in great abundance, so that the plant is well furnished at all seasons; the pinnæ are of more coriaceous texture than those of most Ferns. 50 cts.

Davallia Mooreana. A most beautiful Fern. The fronds are from 2 to 3 feet long, and from 1 to 2 feet wide at the base, triangular and pointed, of a graceful arching habit of growth and most elegantly cut into a multitude of small blunt oblique segments; a pale green. 30 to 50 cts.

Davallia Tyermanni. One of the most beautiful of all the Hare's-foot Ferns, of dwarf compact habit, having rich dark green fronds. The rhizomes are slender, which contrast charmingly with the deep green of the fronds. 50 cts.

Davallia Dissecta. A handsome species, produces fronds from one to two feet in length; it is a splendid Fern for baskets and bouquets. 50 cts.

Polypodium Kurrudrianum.—(*From the Sandwich Islands.*) "A new and remarkably beautiful Fern. From its manner of growth it is peculiarly adapted for culture in hanging baskets. Of a drooping habit, it first sends out a number of wooly fronds of a dark brown color. After the rope-looking fronds have attained to the length of from twelve to fifteen inches, they unroll and become a beautiful bright green, and continue to grow until they are from five to six feet long. 25 cts.

Pteris Serrulata Maxima Cristata, (new.) An exceedingly pretty Fern; the leaves are large and finely crested. 50 cts.

Nephrolepis Davallioides, Furcans, (new.) A beautiful and distinct crested variety of the Java Fern *Nephrolepis davalliodes*. It is a noble Fern, of robust growth, sending forth, as from a central tuft, numerous arching fronds from three to four feet long. 30 to 50 cts.

	Per plant.
LOMARIA GIBBA	25 to 0 50
LOMARIA GIBBA CRISPA—*crisped leaved*	0 50
LOMARIA CILIATA	0 50

Dwarf tree ferns of great beauty which cannot be too highly recommended to all lovers of this beautiful class of plants.

*Platycerium Alcicorne, (Elk's Horn Fern.) A very handsome and distinct evergreen Fern, succeeds well on block or basket. 50 cts.

*Platycerium Grande. A noble species, when grown on a block of wood makes a remarkable handsome specimen. $1.00 to $2.50.

Todea Fraserii.
Superba.
Todea pellucida.
Wilksiana.

There is no family of Ferns which approaches this in grace and beauty. For wardian cases, they are indispensable.

Pactole. Beautiful yellow, slightly tinged rose at edges 1 00
Parmentier. Amaranth, flamed carmine and tinged lilac, with white bands on white ground 1 00
Phadre. Pure white, flamed cherry rose 0 75
Phœbus. Fine spike of large fine red flowers, large pure white stains, much recommended for its striking brilliancy 1 00
Phœnix. Beautiful cherry rose, flamed with darker shade, pure white blotch, charming 1 50
Rosita. Tall spikes, flowers of a very delicate satiny creamy rose color, blotched and marbled cherry carmine, fine shape, extra 1 00
Robert Fortune. Long spike, of a carmine red, bordered and blazed with crimson, ground clear violet tinged, veined white lines 0 50
Reine Blanch. Pure white, dark carmine blotch, very fine 1 50
Titania. Beautiful tall spike, extra large flowers of creamy salmon flamed cherry, distinct and pleasing 1 50
Virginalis. Long spike, very pure white, bordered and blazed with carmine tender rose, very fine and delicate 0 75
Variabilis. White, with or without blotch, flamed lilac 0 75
Urania. Very pure white, largely blazed with carminate bright rose, very fine and brilliant variety 0 75
Saundersonii. A species from the Cape of Good Hope, a brilliant scarlet, white centre; the brightest of all Gladiolus 1 00
Pupureum Auratum. Another very distinct Cape species, flowers yellow, blotched with purple 0 50

*LILIUMS.

Among the hardy bulbous-rooted plants, the Lilies are the most beautiful. Nearly all are perfectly hardy.

Each.

Auratum. White ground, rayed with golden yellow, and spotted with red $0 50
Bulbiferum Auranticum. Orange red, with black dots 0 25
Candidum. Large white Lily, grows about four feet high; this is the well-known white Lily 0 25
Pleno or Monstrosum. A double variety of the last 0 30
Chalcedonicum, (Scarlet Turk's Cap.) Grows three or four feet high, flowers brilliant scarlet 1 00
Columbiana. Grows 1½ to 2 feet high, flowers small, petals turned strongly backward, orange yellow spotted with purple, an exceedingly neat and interesting dwarf Lily, 1 00
Croceum. Brilliant orange color 0 25
Major. A large variety of the last 0 50
Fulgens (Atrosanguinea or Davuricum) Umbellatum. Grows two or three feet high, flowers erect, brilliant red, dotted with black 0 20
Erectum. Very erect, brilliant red, spotted black 0 20
Immaculatum. Orange, with large black spots 0 20
Fulgidum. Very brilliant red, spotted black 0 20
Grandiflorum. A large flowered variety, with black spots 0 20
Incomparable. Brilliant red, spotted black 0 20
Maculatum. Brilliant red, large spotted 0 20

Per plant.

Giganteum, (Cordiocinum.) A magnificent Lily from the Himalaya, flowers white, hardy 1 50

Humboldtii, (Bloomerianum.) A fine California species—color rich orange yellow, with spots of deep blood red, grows five to six feet high. A beautiful species and quite hardy 0 60

Japonicum Brownii. Very large flowers of the purest white on the inside, purple on the outside 2 50

Eximium. Very large flowers of the purest white, a very fine variety 0 50

Longiflorum. Stem two feet high, flowers pure white 0 20

Takesima. Vigorous grower and free bloomer, of the purest white, like the last 0 50

Martagon Flora Alba, (Turk's Cap Lily.) A pure white Turk's Cap Lily, very beautiful 2 50

Pardilinum. A fine California Lily, four to five feet high, yellow centre, densely spotted with crimson, reflex of petals deep orange, very fine 0 50

Philadelphicum Stem two to three feet high, color yellowish red with purple dots 0 30

Pomponicum, (Little Turk's Cap Lily,) Rubrum. Stem two to three feet high, flowers vermilion red 0 50

Luteum. Flowers yellow 0 50

Purpureum. Purple 0 50

Giganteum. Large flowered variety 1 00

Parryii. Pure canary yellow, without spots, very fragrant 1 50

Pyrenaicum. Flowers yellow, spotted with black 0 50

Speciosum (or Lancifolium) Rubrum. Japan Lily, stem two to three feet high, color white, suffused with red, and dotted with bright crimson on inner surface, 0 25

Rubrum Verum. Very fine, deep color, beautiful 1 00

Album. White flowers 0 30

Roseum. White, spotted with rose 0 25

Punctatum. White, delicately spotted with rose 0 50

Macranthum. A variety of Rubrum. flowers large and highly colored 0 75

Melpomme. This fine variety is richer in color than any of the varieties of Speciosum 1 00

Montrosum Album. White, monstrous flowered 0 50

Roseum. Rose spotted, " 0 40

Rubrum. Crimson " " 0 40

Precox. Early flowering and distinct variety, flowers pure white 0 75

Corymbiflorum. A variety of Rubrum, flowering in corymbs 0 50

Superbum. Stem four to six feet high, orange spotted with purple, having a grand panicle of 20 to 40 flowers 0 20

Szovitsianum, (Colchicum or Monadelphum.) Stem three to four feet, flowers bright citron yellow with black points, 2½ to 3½ inches long, fragrant and early blooming, 1 50

Testaceum (or Excelsum.) Stem four to five feet high, flowers light yellow, fragrant, hardy, a fine Lily 0 50

Thomsonianum. A very distinct species, flowers fine rose color, bulbs small 0 50

Thunbergianum (or Elegans.) Stem about two feet high, flowers orange scarlet with black spots 0 30

Flora Pleno. Double 0 30

Biligulatum. Yellow, spotted with black 0 30

Feukwam. New 0 30

Ja-Ehal. Light yellowish salmon, spotted black 0 30

Kikak. Nankin spotted dark purple 0 30

Kemi Gajo. Light yellow 0 30

Bi-color. Two colored 0 30

Tigrinum, (Tiger Lily.) Stem four feet high, flowers brilliant orange red, spotted with black, very showy 0 20

Flora Pleno. A double variety of the last, exceedingly beautiful and attractive 0 30

Splendens. A grand variety, grows four to five feet high, very robust in growth, with larger flowers, more brilliant and more heavily spotted than the species; magnificent 0 50

Venustum. Stem about two feet, flowers bright orange, slightly spotted 0 50

MISCELLANEOUS BULBOUS PLANTS.

Per plant.

*Agapanthus Umbellatus, (African Lily,) Large truss of blue flowers, fine bedded out, 0 50
*Alba. White flowered 1 00
*Major. Large flowered..... 1 50
*Variegata. Variegated leaves. 0 75
*Amaryllis Artemasia, (new) Pure white, with large vermilion stripes, very large flowers, splendid variety. 3 00
*Atrosanguinea Brilliant vermilion, deep rich glowing shade, generally produces two spikes of finely shaped flowers. A grand plant for winter forcing..... 0 75
*Aurore, (new) Pure white, extra large flowers. with large garnet red stripes, slightly tinged with yellow on the borders. Very vigorous, producing generally two spikes of six flowers..... 3 00
Belladona Major. Large charming white flowers, richly flushed with rosy-red, very fragrant..... 1 00
*Delicata, (new.) White, delicately striped and veined with crimson..... 3 00
*Etoile, (new.) Transparent yellow on white ground, slightly striated and striped with purple; well opened flowers. Vigorous and fine, generally produces two spikes..... 3 00
*Fettanii, (robusta.) Flowers large, finely shaped, of a dark jet bright scarlet crimson, veined all over; flowers about mid-winter..... 1 50
*Fulgida. A large flower, deep crimson, veined with white, robust grower generally has two spikes..... 1 50
Formossissima, (Sprekelia.) Jacobea Lily..... 0 25
*Johnsonii Grandiflora, (new) This variety produces from two to four flower spikes, each bearing from four to eight large scarlet flowers, with pure white stripe through each petal..... 1 50
*Lindenii. Glowing vermilion, with light stripes in the centre of each petal. Flowers freely during mid-winter, magnificent..... 2 00
Lutea. Yellow flowered, autumn bloomer, hardy..... 0 25
*Optima, (new.) Deep bright crimson, with broad white stripe in the centre of each petal, very vigorous, generally producing two spikes. A magnificent flower..... 3 00
*Oriflamme, (new.) White, with large salmon red colored petals, somewhat darker in the centre bands; large and well-opened flowers of a splendid shape..... 3 00
*Phœbe, (new.) Pure white, striped and striated with carmine rose. Well-opened flowers, perfect shape..... 3 00
*Refulgens. Glowing vermilion, clear, deep and brilliant, a fine flowerer, and one of the finest and richest flowers, generally produces two spikes; fine for winter forcing. 0 75
Fine unnamed varieties..... 50 to 0 75
Amorphophallus Rivieri. This very curious Aroideæ planted in the open ground, in April–May (like the Dahlias) the tubers will produce on a thick stem, a very extraordinary looking palmated single leaf, in the shape of a reversed umbrella..... 0 25
Anomathica Cruenta. Brilliant red flowers..... in pots 0 25
Arum pictum. Foliage green, spotted with white..... 0 30
Bravoa Geminiflora, spike of Pentstemon-like crimson flowers, very fine..... 0 25
Brodiœa Conjesta, flowers blue on a long scape, a free flowerer..... 0 10
Grandiflora, grows about 1 foot high and covered with a mass of violet blue flowers..... 0 10
Cyclamen Persicum, good flowering bulbs, a fine strain. ..... 25 to 0 50
Coum, brilliant red..... 0 35
European Alba, pure white, very pretty..... 0 50
Giganteum, large flowered..... 25 to 0 50
Cannas. In sorts..... 15 to 0 25
Calla Ethiopica Nana. The well-known "Calla Lily" ..... 25 to 0 50
Coburghia Incarnata. A beautiful Peruvian plant with scarlet flowers..... 0 50
Crinum Americanum. Large umbels of white flowers, fragrant..... 0 50
Crocosmia. See *Tritonia.*
Dielytra Spectabilis, (Bleeding Heart.) Long racemes of purplish crimson flowers..... 0 25
Eximia, (Formosa.) Rosy crimson flowers..... 0 25
Scoulerii. Rosy crimson..... 0 25
Eurycles Cunninghamii.

Grevillea Robusta. A fine decorative plant.....25 to 0 50
Gymnostachyum Pearcei. A superb species, and in every respect one of the most beautiful of foliage plants..... 0 20
Giganteum. In this beautiful species we have a plant of equal beauty with others of the genus..... 0 20
Verschaffeltii. Stems and branches are of a reddish tinge, red leaf stalks, upper surface of the leaf smooth and richly painted with reticulations which vary from red to rich pink, passing into brilliant scarlet..... 0 20
Graptophyllum Pictum Leaves deep green with a large blotch of bright gold in the centre, a beautiful foliage plant requires a hothouse.....25 to 0 50
Versicolor. Various colored..... 0 25
Hoya Carnosa, Waxplant. A very beautiful and well-known plant..... 0 25
Carnosa Variegata. Centre of leaf green margined with silver..... 0 25
Bella. A delicate growing but charming species..... 0 50
Paxtonii. A distinct and beautiful plant..... 0 50
Hardenbergia Comptoniana. Pretty greenhouse climber with rose and purple flowers, 0 40

Per plant.

Hexacentris Mysorensis. A beautiful climbing plant, flowers yellow and crimson..... 0 50
Impatiens Hookeriana. A very pretty plant, blooms freely during winter..... 0 50
Justicia Cornea. A winter bloomer, flowers pink..... 0 20
Jasminum Grandiflorum Catalonian. Beautiful white Jassamine..... 0 25
Hirsutum. A beautiful winter flowering Jassamine, flowers in wreaths and bunches of the purest white, deliciously scented..... 0 50
Revolutum. Yellow..... 0 25
Kadsura Japonica Marginata. A beautiful half hardy climber, foliage green, margined with gold..... 0 50
Kleinea Repens. A free flower, bushy in habit, and the leaves are about three inches long, by one-quarter of an inch in diameter, perfectly round, and a bright blue in color; a succulent plant of easy growth..... 0 25
Linaria Cymbalaria, (Kenilworth Ivy.) A pretty trailing plant..... 0 10
Lavendula Spica Alba. White lavender..... 0 20
Leonothus Leonorus. This is an old but very beautiful plant, which succeeds admirably bedded out during summer, where it will produce its remarkably long terminal spikes of brilliant orange colored flowers in dense zones throughout the summer... 0 25
Leea Coccinea. A large fine foliage plant..... 0 40
Lingularia Kempferi Argentea. A herbaceous plant nearly or quite hardy, with large finely variegated leaves..... 0 40
Libonia Penrhosiensis. Freely producing its fine showy flowers, which are of a bright rich crimson color. It blooms in the depth of winter..... 0 25
Laurestinus. (Viburnum Tinus.) For winter flowering..... 0 25
Lasiandra Splendens. Violet purple flower, fine for winter..... 0 40
Lotus Jacobeus. An old though scarce plant, producing continually and in the greatest profusion, beautiful dark brown, fragrant, pea shaped flowers..... 0 20
Macadamia ternifolia. Queensland nut..... 0 50
Musa species, (new.) From Queensland, fine for bedding out..... 1 00
Mahernia Odorata. Winter bloomer, flowers yellow, fragrant..... 0 15
Mikania Violacea, (Parlor Ivy.) A creeping plant with purplish green upper surface of leaf..... 0 15
Mesembryanthemum Cordifolium Variegatum. An exceedingly attractive variegated foliaged plant. The branches are furnished with fat fleshy heart-shaped leaves, distinctly margined with cream color..... 0 15
Myrtus Communis. Small leaved Myrtle..... 0 20
Meyenia Erecta. Purple flowers, pretty plant..... 0 25
Alba..... 0 25
Myrsiphyllum Asparagoides, (Smilax.) Beautiful climber for wreaths, cut flowers, etc..... 10 to 0 20
Magnolia Fuscata. A very fragrant species, strong plants..... 1 00
Mandevillea Suavolens. Greenhouse climber, with lovely white fragrant flowers..... 0 50
Othonna Crassifolia. An exceedingly beautiful plant for hanging baskets..... 0 15
Ophiopogan Spicatum Argentea Marginatum. A half hardy Japanese plant, with broad grassy leaves, margined with white, and producing freely white flowers..... 0 30
Aureo Marginatum. Similar to the last, but in this variety the variegation is a deep yellow..... 0 30
Olea Fragrans. Fragrant Olive..... 25 to 0 50
Peperomia Argyrea, Magnolifolia, Verschaffelti, } Dwarf growing plants, suitable for baskets and wardian cases. The leaves are delicately blended, being bright green along the line of the nerves..... 0 15
Plumbago Capensis. We have no plant of the same color of flowers to approach this for summer bedding. Plants bedded out in May will continue flowering through the summer, color a delicate azure blue. The plants can be kept in a cellar during winter..... 0 25
Larpentæ. Like the last, this blooms through the summer, color bluish purple, quite hardy..... 0 20
Rosea. Flowers rose color, fine for bedding or winter blooming..... 0 25
Poinsettia Pulcherrima Fine winter blooming plant..... 25 to 0 50
Pittosporum Tobira. Very fragrant shrubs..... 0 25
Variegata. Variegated..... 0 25
Pilea Muscosa. Artillery plant..... 0 15

Half the $10 collection.

---

*Plants Free by Mail.

We have for some years forwarded plants in large numbers by mail to the most distant parts of the Union, as Texas, Utah, the Pacific Coast, with perfect success. All of which are properly labeled and carefully packed in boxes or oiled paper. The following plants will be sent by mail, prepaid, at the prices annexed, or any new plant can be forwarded in the same way. No order for less than one dollar will be filled. This rule is necessary, as the mailing of one or two cheap plants will not compensate us, in the hurry of business, for the time and labor of packing, directing, pre-paying postage, etc. Our selection, one-quarter of a dozen at a dozen rates:

Either of the following collections free by mail, for $1.00.

12 Achyranthus. Assorted.
12 Alternantheras. "
8 Antirrhinums "
8 Aquilegias. "

12 Bedding Plants, our selection.
25 Packets Flower Seeds.

All plants suitable for mailing at Catalogue rates. Not less than one dollar's worth sent in one order.

Garden and Flower Seeds.

Having been many years engaged in the Seed business, both as a grower and dealer, I can, with confidence, recommend all articles offered. They are NEW, PURE and GENUINE. See *Catalogue No. 2.*

Fruits, Ornamental Trees, Evergreens.

A very extensive stock of Fruit, Ornamental Trees, Evergreens, Shrubs, Roses, etc., are grown at my Nurseries, on the Seventh Street Road, all of which are of the most vigorous description, and are offered at low rates. See *Catalogue No. 1.*

HARRY KING--New Zonale.

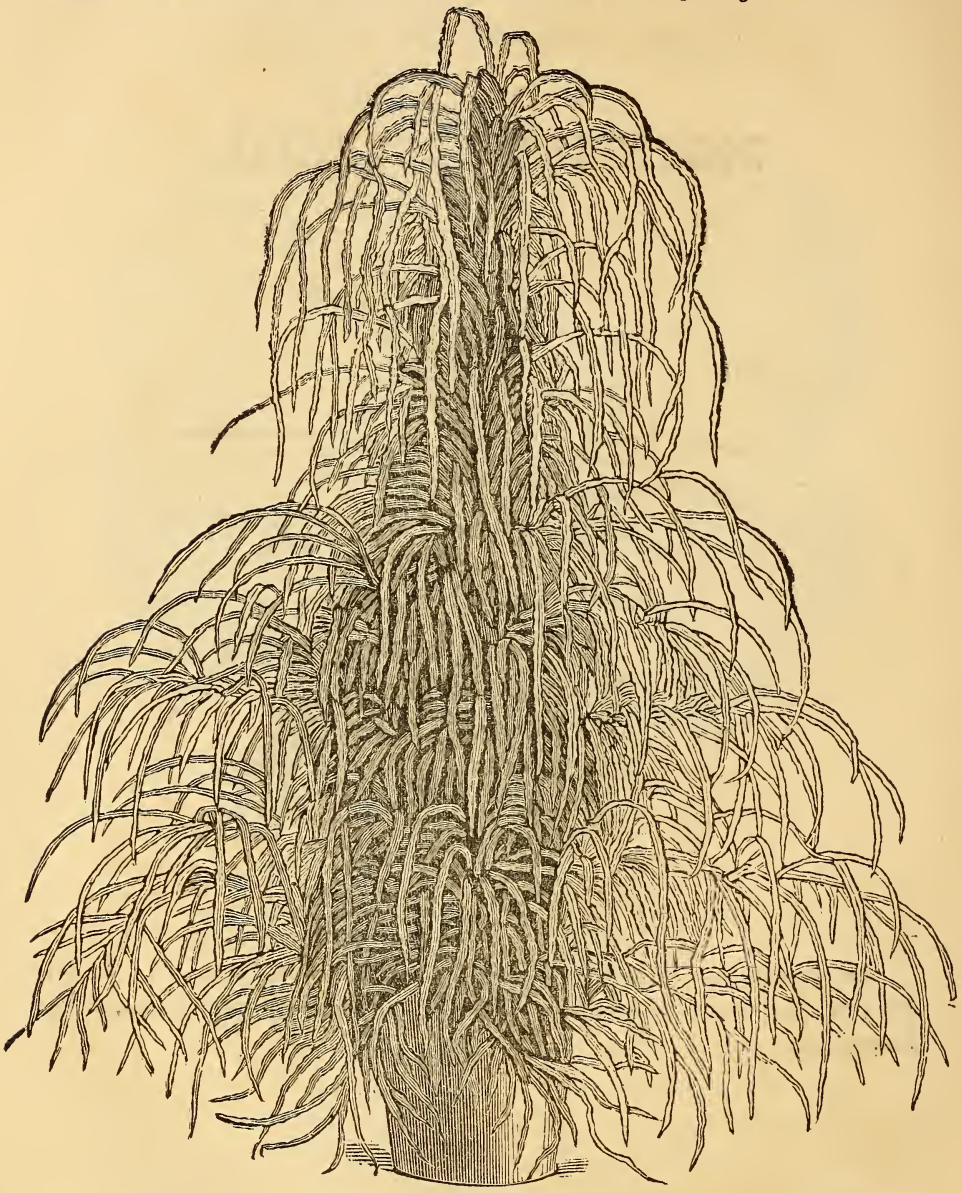
This is certainly the most magnificent vivid crimson Zonale ever yet sent out, and the above engraving conveys but a very inadequate idea of its immense trusses; color intense and brilliant scarlet, considerably darker and more glowing than *Jean Sisley;* large white eye, each pip of fine shape, and of great substance, which causes every petal to reflex as soon as each bud expands, consequently each flower remains a longer time in perfection than any other Zonale; it also has the valuable property of keeping its centre well filled up. The color of this variety totally eclipses all other older kinds, and is unquestionably the most magnificent crimson scarlet Zonale ever sent out. 15 cents each.

CORDYLINE AUSTRALIS.

An Australian Plant of much Grace and Beauty, with very Long, Narrow and Graceful Foliage, admirable for Vases, single Specimens on Lawns, &c.

AMARANTHUS SALICIFOLIUS.

This very beautiful and graceful plant has given universal satisfaction, having succeeded better—developing its beauty more fully—in our warm climate than it was found to do in the cooler climate of England.



The leaves, which are beautifully undulated, vary in the earlier stages of growth, from a green to a bronzy green shade. As the plants get stronger, the leaves at the ends of all the principal branches resume a bright orange red color, and become more elongated, generally being 10 to 15 inches in length, forming magnificent bright colored plumes, and giving the plant a most elegant and picturesque appearance. ***Price per plant 15 cents.***

PREMIUMS.

I was Awarded the following Premiums at the

CINCINNATI INDUSTRIAL EXPOSITION,

September, 1879.

FIRST PREMIUM—*"Best Group of Crotons."*

FIRST PREMIUM—*"Best Single Specimen of Croton."*

FIRST PREMIUM—*"Best Group of Dracænas."*

FIRST PREMIUM—*"Best Group of Marantas."*

FIRST PREMIUM—*"Best Single Specimen of Maranta."*

FIRST PREMIUM—*"Best Single Specimen of Dieffenbachia."*

SECOND PREMIUM—*"Second Best Group of Variegated Foliage Plants.*

FIRST PREMIUM—*"Best Single Specimen of Variegated Foliage Plant."*

SPECIAL PREMIUM—*"For Davallia Mooreana."*

I have also been Awarded for several years, leading Premiums by the Maryland Horticultural Society and District of Columbia Horticultural Society for Dracænas, Crotons, Foliage Plants, Stove and Green House Plants, Ferns, &c. *In Cut Flowers, for* Dahlias, Roses, Phloxes, Herbaceous Plants, &c.

Campanula Medium Calycanthema Alba,
Pure White.

Campanula Medium Calycanthema Cærulea,
Dark Blue.

Campanula Medium Calycanthema Lilac.

These splendid biennials are almost unrivalled for their brilliant effect in the flower garden, and as single specimens for conservatory decoration, it is scarcely possible to over-estimate their value. In habit the plant differs but little from the well-known form of the old blue and white Canterbury Bell, but while the corolla is much larger, the calyx, in addition, is enlarged to nearly four inches in diameter, presenting the form of a saucer, and changed from its ordinary green color to the same as that of the corolla, thus adding considerably to its beauty. The fact of its coming true from seed renders it easy of access, placing it within the reach of all amateurs and lovers of their garden.

Price per Plant, 25 cents.
